VI MOTOSTUDENT INTERNATIONAL COMPETITION

2019-2020

OFFICIAL TIRE SUPPLIER - BRIDGESTONE

Bridgestone is the Official Tire Supplier for the VI MotoStudent International Competition 2019 - 2020. All registered teams will receive a set of Bridgestone slick tires within their MotoStudent Kit, compulsory to install in the prototypes.

Only Bridgestone MotoStudent Official Tires, supplied through the Competition Organization, are allowed for the participation in MotoStudent (See MotoStudent Technical Regulations: Art. B.9.2).

WET TIRES

In case of raining conditions during the MS2 Phase, Bridgestone will offer the possibility of acquiring WET type tires, with grooved tread for a perfect water evacuation.

These tires will allow teams to race on the wet track and complete the MS2 Phase dynamic tests, according to Art.G.3.1. of the Competition Regulations.

BRIDGESTONE TECHNICAL SERVICE

Bridgestone will deploy its Technical Service in MotorLand Aragón Paddock during the MotoStudent Final Event in Autumn 2020.

Tire fitting and specialized technical services will be available for all participating teams.

Technical staff from Bridgestone will check the tires behavior and track conditions during the different MS2 dynamic tests

ADDITIONAL TIRES SET

All teams are allowed to acquire an "extra" set of tires (1 front and 1 rear) during the Final Event to take part in the MS2 Phase, according to Art. B.9.2.1. of the MotoStudent Technical Regulations

Prices of these extra tires will be published during the Event. Sets acquired out from the Organization will not be allowed to take part at MotoStudent.

All Technical questions and requests about the Bridgestone Official Tires must be directed to the MotoStudent Technical Department through MotoStudent Support Center:
