Abstract	v
Resumen	vii
Resum	ix
Introduction	19
1.1. Motivation	19
1.2. Objectives	21
1.3. Organization of this thesis.....	25
Introduction of the technique	29
2.1. Introduction.....	29
2.2. AR technology	31
2.3. VR technology	33
2.3.1. Process to develop a VR app	35
2.3.2. Modelling and texturing the virtual elements	35
2.3.3. Environment creation.....	36
2.3.4. Interactive scripting.....	36
2.4. Case studies.....	36
2.4.1. Example 1: The Augmented Globe.....	36
2.4.2. Example 2: Interactive visit to a rock art shelter.....	37
2.5. Conclusions.....	39
Augmented reality libraries	41
3.1. Introduction.....	42
3.2. AR and tracking methods	43
3.2.1. Context	43
3.2.2. Tracking methods	44
3.2.3. Marker-based tracking	44
3.2.4. Markerless tracking	45
3.2.5. Feature-based tracking	45
3.2.6. Libraries	46
3.2.7. Vuforia.....	47
3.2.8. ARToolKit	47

3.3.	Design and implementation	48
3.3.1.	Case study: Cova dels Cavalls	48
3.3.2.	App requirements	49
3.3.3.	Evaluated factors.....	49
3.3.4.	Feature database.....	49
3.3.5.	App initialisation time	49
3.3.6.	Tracking time.....	49
3.3.7.	Occlusion percentage.....	50
3.3.8.	Lighting conditions	50
3.4.	Experimental results.....	50
3.4.1.	Indoor AR app dealing with printed colour image of a rock art scene	50
3.4.2.	Features database	51
3.4.3.	App initialisation time	52
3.4.4.	Tracking time.....	53
3.4.5.	Occlusion percentage.....	54
3.4.6.	Lighting conditions	54
3.5.	Real environment results	55
3.5.1.	Features database	56
3.5.2.	Tracking time.....	56
3.6.	Discussion.....	58
3.7.	Conclusion	60
	Design and evaluation of an AR rock art app.....	61
4.1.	Introduction.....	62
4.2.	Mobile AR technology	63
4.3.	Cova dels Cavalls	64
4.4.	Design and implementation	65
4.4.1.	ARToolKit feature-based tracking	67
4.4.2.	ARToolKit dataset generation	67
4.4.3.	Virtual content	68
4.4.4.	Scripting.....	69
4.5.	Usability evaluation.....	69
4.6.	Discussion.....	72
4.7.	Conclusion	74

Lighting effect on outdoor tracking recognition	75
5.1. Introduction.....	76
5.2. Related Work.....	77
5.2.1. AR Experiences in Cultural Heritage.....	77
5.2.2. Tracking Outdoor	78
5.2.3. 3D Data Optimization	79
5.3. Materials and Methods.....	79
5.3.1. Mobile Device.....	79
5.3.2. Outdoor Tracking	80
5.3.3. Multitarget Outdoor Testing on Parliament Hill	81
5.3.4. Realism	85
5.4. Discussion	89
5.5. Conclusions.....	90
Overall Discussion.....	91
Conclusions	95
References.....	99
