

<b>I</b>	<b>Introduction and State of the Art</b>	<b>18</b>
<b>1</b>	<b>Introduction</b>	<b>20</b>
1.1	Objectives . . . . .	24
1.2	Contributions . . . . .	25
1.3	Structure of the Thesis . . . . .	26
1.4	Publication List . . . . .	27
<b>2</b>	<b>State of the Art</b>	<b>32</b>
2.1	Recommender Systems . . . . .	33
2.1.1	Properties . . . . .	34
2.1.2	Techniques . . . . .	37
2.1.3	Evaluation . . . . .	43
2.1.4	Tourism Recommender Systems . . . . .	49
2.2	Obtaining the Human Personality . . . . .	52
2.2.1	The Personality Through the Forms . . . . .	52
2.2.2	The Personality Through the Social Networks . . . . .	60
2.2.3	The Positive Psychology . . . . .	64
2.2.4	Aspects of Personality and Sociodemographics in the Environment in Travel Choices . . . . .	67
2.3	Recommender Systems Based on Personality . . . . .	72
<b>II</b>	<b>Selected Papers</b>	<b>77</b>
<b>3</b>	<b>Recommendation Systems for Tourism Based on Social Net- works: A Survey</b>	<b>84</b>
3.1	Introduction . . . . .	86
3.2	Background . . . . .	89

---

3.2.1	Techniques for recommender systems . . . . .	89
3.2.2	Social Networks . . . . .	92
3.3	Methodology . . . . .	93
3.4	Analysis of Tourism Recommender Systems using Social Networks	97
3.4.1	Which social networks and additional data sources are used? . . . . .	97
3.4.2	What data are extracted from social networks? . . . . .	100
3.4.3	What recommendation techniques are used? . . . . .	104
3.4.4	What properties of recommender systems are used? . . . . .	105
3.4.5	Which type of recommendation is generated? . . . . .	108
3.4.6	Which evaluation methods are used? . . . . .	110
3.4.7	What type of interface is used? . . . . .	113
3.5	Discussion . . . . .	115
<b>4</b>	<b>A Hybrid Recommendation System Based on Human Curiosity</b>	<b>123</b>
4.1	Introduction and Motivations . . . . .	125
4.2	Curiosity . . . . .	127
4.3	The Hybrid Recommender Based on Curiosity . . . . .	127
4.3.1	Model Generation . . . . .	129
4.3.2	Model Execution . . . . .	130
4.4	Evaluations . . . . .	132
4.5	Conclusions and Future Work . . . . .	134
<b>5</b>	<b>Predicting the Human Curiosity from Users' Profiles on Facebook</b>	<b>137</b>
5.1	Introduction . . . . .	139
5.2	Related Work . . . . .	141
5.3	The Human Curiosity . . . . .	143
5.4	Methodology . . . . .	145
5.4.1	Data Extraction . . . . .	147
5.4.2	Pre-Processing . . . . .	148

---

5.5	Predicting Curiosity . . . . .	151
5.5.1	Curiosity and Profile Correlations . . . . .	152
5.5.2	Predicting Curiosity . . . . .	155
5.6	Conclusions and Future Works . . . . .	156
<b>6</b>	<b>Are you Curious?</b>	
	<b>Predicting the Human Curiosity from Facebook</b>	<b>160</b>
6.1	Introduction . . . . .	162
6.2	Background . . . . .	164
6.3	Methodology . . . . .	166
6.3.1	Facebook Application . . . . .	167
6.3.2	Search System for Social Networks . . . . .	168
6.4	Predicting Curiosity . . . . .	171
6.4.1	Analysis of the participants . . . . .	171
6.4.2	Curiosity and Facebook profile Correlations . . . . .	174
6.4.3	Generating the Model . . . . .	178
6.5	Conclusions and Future Work . . . . .	180
<b>7</b>	<b>Curumim: A Serendipitous Recommender System based on Human Curiosity</b>	<b>184</b>
7.1	Introduction . . . . .	186
7.2	State of the Art . . . . .	188
7.2.1	Serendipity in recommendation systems . . . . .	189
7.2.2	Aspects of personality and the environment in travel choices . . . . .	190
7.3	Curumim . . . . .	193
7.3.1	Predicting the Curiosity (Stage 1) . . . . .	195
7.3.2	Serendipity List (Stage 2) . . . . .	196
7.3.3	Selection of the final recommendation list (Stage 3) . . .	200
7.4	Use Case . . . . .	201
7.5	Conclusions and Future Works . . . . .	206

<b>8</b>	<b>Curumin: A Serendipitous Recommender System for Tourism Based on Human Curiosity</b>	<b>209</b>
8.1	Introduction . . . . .	211
8.2	State of the Art . . . . .	213
8.3	The CURUMIM System . . . . .	214
8.3.1	Predicting the Curiosity (Stage 1) . . . . .	217
8.3.2	Serendipity List (Stage 2) . . . . .	218
8.3.3	Selection of the final recommendation list (Stage 3) . . .	221
8.3.4	User Interface . . . . .	222
8.4	Evaluations . . . . .	223
8.4.1	Adequacy of the recommendations . . . . .	224
8.4.2	Evaluation of the user satisfaction . . . . .	225
8.5	Conclusions and Future Work . . . . .	230
<b>III</b>	<b>Discussion</b>	<b>233</b>
<b>9</b>	<b>Discussions</b>	<b>235</b>
9.1	Summary of the Research . . . . .	236
9.2	The evolution of the CURUMIM architecture . . . . .	237
9.2.1	First prototype of the RS . . . . .	238
9.2.2	Improvement of the degree of curiosity prediction . . . .	240
9.2.3	Second prototype and the use cases . . . . .	241
9.2.4	The final architecture . . . . .	243
9.2.5	Volunteers . . . . .	243
9.3	Relevant recent findings by Kashdan et al. . . . .	249
<b>10</b>	<b>Conclusions, Limitations and Future Works</b>	<b>252</b>
10.1	Conclusions . . . . .	253
10.2	Limitations . . . . .	254
10.3	Future Works . . . . .	256

<b>Appendices</b>	<b>259</b>
<b>A Appendix</b>	<b>260</b>
A.1 Poster presented in ACM Conference on Recommender Systems	260
A.2 Poster presented in ACM Conference on Recommender Systems	261
