

# Table of Contents

Acronyms .....	xi
Symbols .....	xiii
List of Figures .....	xviii
List of Tables .....	xxi
<b>CHAPTER 1 INTRODUCTION .....</b>	<b>1</b>
1.1 Introduction.....	2
1.2 Research aims/objectives .....	4
1.3 Milestones achieved.....	5
1.4 Structure of the thesis.....	5
<b>CHAPTER 2 THEORY OF SEMICONDUCTOR.....</b>	<b>6</b>
2.1 Physics of p-n junction.....	7
2.1.1 Semiconductors .....	7
2.1.2 pn junction.....	10
2.2 Diode current equation.....	12
2.3 Introduction to photovoltaic.....	14
2.4 Physics of photovoltaics .....	15
2.4.1 Photovoltaic effect.....	15
2.4.2 Working principle of solar cell.....	16
2.5 Basic parameters and electrical characterization methods.....	19
2.5.1 IV characteristic of a PV device.....	19
2.5.2 Short circuit current.....	19
2.5.3 Open circuit voltage.....	20
2.5.4 Efficiency .....	21
<b>CHAPTER 3 RECOMBINATION LOSSES IN SOLAR CELL IN PERSPECTIVES OF SCAPS. 22</b>	
3.1 Recombination loss.....	23
3.1.1 Bulk recombination loss .....	23
3.1.2 Interface recombination loss.....	25
3.1.3 Recombination at metal semiconductor contacts.....	27
3.2 Effect of minority charge carrier mobility on recombination .....	28
<b>CHAPTER 4 NUMERICAL ANALYSIS.....</b>	<b>29</b>
4.1 Introduction.....	30
4.2 Basic semiconductor equation .....	31
4.3 SCAPS-ID.....	32
4.3.1 SCAPS-ID front end interface.....	33
4.3.2 SCAPS-ID problem setting .....	34

4.3.3	Adding layers to structure.....	35
4.4	Baseline simulation for numerical analysis of <b>SnS</b> solar cell .....	36
4.4.1	Results and discussion .....	37
4.4.2	Conclusion.....	40
4.5	Adding back surface field layer to ZnO/n – CdS/p – SnS structure.....	40
4.5.1.	Results and discussion.....	40
4.5.2.	Conclusion .....	46

**CHAPTER 5 EFFICIENCY ENHANCEMENT OF EXPERIMENTALLY DESIGNED SOLAR CELL .... 48**

5.1	Factor limiting the efficiency of <b>SnS</b> solar cell.....	50
5.1.1	Solar cell model and simulation parameters .....	50
5.1.2	Result and Discussion .....	51
i.	Effect of absorber thickness.....	51
ii.	Effect of temperature .....	52
iii.	Effect of band tailing (Urbach tail).....	53
iv.	Effect of defects in SnS/CdS/ZnO solar cells.....	56
v.	Comparison with experimental design solar cell result.....	57
5.1.3	Conclusion .....	58
5.2	Numerical analysis a guide to improve the efficiency of experimental solar cell .....	59
5.2.1	Simulation model.....	60
5.2.2	Cell structure and band diagram.....	61
5.2.3	Results and Discussion .....	61
i.	Comparison of result with experimental work.....	62
ii.	Effect of buffer layer on solar cell performance .....	63
iii.	Effect of absorber layer on solar cell performance .....	64
iv.	Adding ZnO window layer in design .....	65
v.	Effect of band gap on solar cell performance .....	65
vi.	Effect of mobility and diffusion length on solar cell performance .....	66
vii.	Effect of absorber acceptor and buffer donor doping concentration.....	68
viii.	Proposed design of solar cell.....	70
5.2.4	Conclusion.....	71

**CHAPTER 6 EFFICIENCY ENHANCEMENT OF CH<sub>3</sub>NH<sub>3</sub>SnI<sub>3</sub> SOLAR CELL ..... 72**

6.1	Mitigation of interface recombination by careful selection of ETL for efficiency enhancement of MASnI <sub>3</sub> solar cell	75
6.1.1	Device physics .....	75
6.1.2	Results and discussion .....	79
i.	Effect of ETL CBO on J – V characteristics and interface recombination .....	79
ii.	Effect of thickness of ETL on solar cell performance.....	83
iii.	Effect of donor doping of ETL on solar cell performance .....	84
iv.	Selection of ETL.....	86
v.	Effect of absorber thickness on solar cell performance .....	87

vi.	Effect of absorber layer doping on interface recombination .....	88
6.1.3	Conclusion .....	89
6.2	Efficiency enhancement of CH <sub>3</sub> NH <sub>3</sub> SnI <sub>3</sub> solar cell by device modeling .....	90
6.2.1	Simulation setup .....	92
6.2.2	Result and Discussion.....	93
i.	Effect of MASnBr <sub>3</sub> HTL on solar cell performance .....	93
ii.	Effect of Absorber thickness and doping concentration of solar cell performance.....	95
iii.	ETL band gap and electron affinity effect on solar cell performance .....	97
iv.	Effect of absorber layer defect on solar cell performance.....	99
v.	Comparison of results .....	101
6.2.3	Conclusion.....	101
<b>CHAPTER 7 CONCLUSION AND FUTURE WORK .....</b>		<b>103</b>
7.1	Conclusion .....	104
7.2	Future Work.....	105
