Agradecimientos.....	iii
Índice.....	iv
Lista de Tablas:.....	vii
Lista de Vídeos:.....	ix
Resumen.....	x
Abstract.....	xii
Resum.....	xiv
<b>Capítulo 1 Introducción.....</b>	<b>1</b>
<b>1. Introducción.....</b>	<b>2</b>
1.1. Antecedentes.....	2
1.2. Objetivos de la investigación.....	5
1.3. Metodología y estructura general de la investigación.....	7
Referencias.....	12
<b>Capítulo 2 Tendencias actuales en materia de Evaluación de Vulnerabilidad Urbana -</b> Current trends in Urban Vulnerability Assessment.....	<b>13</b>
<b>2.1 Introduction.....</b>	<b>15</b>
<b>2.2 Evolution.....</b>	<b>16</b>
2.2.1 <i>Strategic planning</i> .....	16
2.2.2 <i>Vulnerability assessment</i> .....	17
2.2.3 <i>Common research lines</i> .....	18
<b>2.3 Conceptual framework for UVA.....</b>	<b>20</b>
2.3.1 <i>Generic attributes</i> .....	20
<b>2.4 Methodology: selection of studies.....</b>	<b>23</b>
<b>2.5 Results, descriptive analysis of the research effort made.....</b>	<b>23</b>
2.5.1 <i>Contextualization of UVA</i> .....	23
2.5.2 <i>Research effort made</i> .....	26
<b>2.6 Analytical framework and discussion on the advancement made.....</b>	<b>29</b>
2.6.1 <i>Analysis of each research attribute</i> .....	29
2.6.2 <i>Relationships between research and generic attributes</i> .....	33
2.6.3 <i>Policy implications</i> .....	33
<b>2.7 Conclusions.....</b>	<b>34</b>
<b>Capítulo 3 Metodología para la selección de Modelos de Evaluación de Vulnerabilidad Urbana - A method for selecting Urban Vulnerability Assessment Models.....</b>	<b>45</b>
<b>3.1 Introduction.....</b>	<b>47</b>
<b>3.2 Methods.....</b>	<b>50</b>
3.2.1 <i>General Workflow</i> :.....	50
3.2.2 <i>Control module (Figure 3.1, 2.3)</i> .....	51
3.2.3 <i>Optimization module (Figure 3.2, 2.2)</i> .....	51
3.2.4 <i>UVA Assessment Module (Figure 2, 2.1)</i> .....	57
<b>3.3 Case study.....</b>	<b>59</b>
3.3.1 <i>Assessment of Urban Vulnerability in Spain</i> .....	59
3.3.2 <i>Collection and pre-treatment of data and expert-judgment</i> .....	60
3.3.3 <i>Set-up of the process</i> .....	60
3.3.4 <i>Run of the process</i> .....	61
<b>3.4 Results and Discussion.....</b>	<b>61</b>
3.4.1 <i>Guidelines for Period 1, 1991-2001</i> .....	61
3.4.2 <i>Guidelines for Period 2, 2001-2011</i> .....	64
3.4.3 <i>Improvements rendered by the many-objective approach</i> .....	65
3.4.4 <i>Improvements regarding the current UVA in Spain</i> .....	66
<b>3.5 Conclusions and further research.....</b>	<b>67</b>

<b>Capítulo 4 Proceso de selección de un Modelo de Evaluación de Vulnerabilidad Urbana -</b>	
Process of selecting an Urban Vulnerability Assessment Model .....	<b>75</b>
<b>4.1 Introducción.</b> .....	<b>78</b>
<b>4.2 Methods</b> .....	<b>79</b>
<b>4.2.1 Decision-making framework: addressing the curse of dimensionality</b> .....	<b>79</b>
4.2.1.1 Visual analytics .....	80
4.2.1.2 Cluster analysis .....	81
4.2.1.3 Bottom-up/top-down approach .....	82
<b>4.2.2 Urban vulnerability assessment framework</b> .....	<b>83</b>
<b>4.2.3 Information collection process</b> .....	<b>83</b>
4.2.3.1 Quantitative information .....	83
4.2.3.2 Qualitative information .....	84
<b>4.3 Results</b> .....	<b>86</b>
<b>4.3.1 A tool for evaluation of relative preferences</b> .....	<b>86</b>
4.3.1.1 Description of the tool for gathering relative preferences .....	86
4.3.1.2 Discussion of the results of expert judgment .....	88
<b>4.3.2 A tool for selecting UVAM</b> .....	<b>89</b>
4.3.2.1 Description of VisualUVAM .....	89
4.3.2.2 Discussion of the results yielded by the VisualUVAM tool: .....	94
<b>4.4 Conclusions and further research</b> .....	<b>98</b>
<b>References:</b> .....	<b>101</b>
<b>Capítulo 5 Evaluación de riesgos y oportunidades derivados de incertidumbres relacionales</b>	
<b>asociadas a la planificación de infraestructuras - Evaluation of risks and opportunities arising</b>	
<b>from relational uncertainties associated with infrastructure planning</b> .....	<b>104</b>
<b>5.1 Introduction</b> .....	<b>107</b>
<b>5.2 Methods</b> .....	<b>110</b>
<b>5.2.1. General Workflow</b> .....	<b>112</b>
<b>5.2.2. Planning module: Generation of Planning (Figure 5.2, PM)</b> .....	<b>112</b>
5.2.2.1. Definition of impact objectives .....	113
5.2.2.2. Definition of groups of interest .....	115
5.2.2.3. Definition of robustness objective.....	116
<b>5.2.3. Scenarios module, discovering scenarios and proposing policy measures (Figure 5.2, SM-I &amp; SM-II)</b> .....	<b>121</b>
5.2.3.1. Co-ordination policy options into a decision-making framework.....	121
5.2.3.2. Multi-Scale Relational Risk and Opportunity (MS-ReRO) assessment of hierarchical multi-scale systems.....	121
5.2.3.3. Dynamic Risk and Opportunity Simultaneous Evaluation (D-ROSE) method.....	124
5.2.3.4. Proposing accompanying policies .....	125
<b>5.3 Case study</b> .....	<b>126</b>
<b>5.3.1. Infrastructure planning to address UV in Spain</b> .....	<b>126</b>
<b>5.3.2. Collection of data and set-up of the process</b> .....	<b>127</b>
<b>5.3.3. Running the process</b> .....	<b>128</b>
<b>5.4 Results</b> .....	<b>129</b>
<b>5.4.1. Step 1, Guidelines from Planning alternatives (I-1)</b> .....	<b>129</b>
<b>5.4.2. Step 2, Guidelines for risk and opportunity balance from D-ROSE (I-2)</b> .....	<b>131</b>
<b>5.4.3. Step 3, Guidelines for risk and opportunity balance from the MS ReRO (I-3)</b> .....	<b>133</b>
<b>5.5 Discussion</b> .....	<b>135</b>
<b>5.6 Conclusions</b> .....	<b>138</b>
<b>Acknowledgments:</b> .....	<b>139</b>
<b>Capítulo 6 Discusión</b> .....	<b>143</b>
<b>6.1 Primera pregunta</b> .....	<b>144</b>
<b>6.2 Segunda pregunta</b> .....	<b>145</b>
<b>6.3 Tercera pregunta</b> .....	<b>146</b>
<b>6.4 Cuarta pregunta</b> .....	<b>147</b>

<b>Capítulo 7 Conclusiones.....</b>	<b>149</b>
<b>7.1 Conclusiones.....</b>	<b>150</b>
7.1.1 <i>Conclusiones Generales</i> .....	151
7.1.2 <i>Conclusiones Específicas</i> .....	151
7.1.3 <i>Limitaciones y líneas de investigación futuras</i> .....	153
<b>7.2 Conclusions .....</b>	<b>155</b>
7.2.1 <i>General conclusions</i> .....	155
7.2.2 <i>Specific Conclusions</i> .....	156
7.2.3 <i>Limitations and future research</i> .....	158
<b>7.3 Conclusions .....</b>	<b>160</b>
7.3.1 <i>Conclusions Generals</i> .....	160
7.3.2 <i>Conclusions Específiques</i> .....	161
7.3.3 <i>Limitacions i línies de recerca futures</i> .....	163
<b>Referencias Generales .....</b>	<b>165</b>
<b>ANEXOS.....</b>	<b>232</b>
<b>Anexo 1 Portadas de los artículos publicados.....</b>	<b>233</b>
<b>Anexo 1.1:</b> Portada del artículo <i>Urban vulnerability assessment: Advances from the strategic planning outlook</i> , publicado en Journal of Cleaner Production (Capítulo 2).....	<b>234</b>
<b>Anexo 1.2:</b> Portada del artículo <i>A discursive, many-objective approach for selecting more-evolved urban vulnerability assessment models</i> , publicado en Journal of Cleaner Production (Capítulo 3) .....	<b>245</b>
<b>Anexo 1.3:</b> Portada del artículo <i>MS-ReRO and D-ROSE methods: assessing relational uncertainty and evaluating scenarios' risks and opportunities on multi-scale infrastructure systems</i> , publicado en Journal of Cleaner Production (Capítulo 5).....	<b>246</b>
<b>Results of the analysis at the regional, provincial and municipal levels.....</b>	<b>247</b>

## Lista de Tablas:

Table 2.1 Developmental stages and their characteristic evolution.....	18
Table 2.2 Research requirements of USP and UVA.....	19
Table 2.3 Description of urban vulnerability assessment methods.....	24
Table 2.4 Urban vulnerability assessment research requirement types. ....	26
Table 2.5 Assessments per number of simultaneously undertaken requirements.....	27
Table 2.6 Description of research requirements undertaken by urban vulnerability assessment methods. ....	28
Table 2.7 Studies dealing with uncertainty.....	30
Table 2.8 Evaluation of the advancement made on urban vulnerability assessment methods.....	35
Table 3.1 Objectives describing behaviour and comparative between optimizations with and without breaking down the GOF objective.....	53
Table 3.2 Results of the AHP process and of the best model for each decision objective. ....	55
Table 4.1 Relative Preferences of Experts and comparison with Preferences of the Urban Vulnerability Observatory .....	84
Table 4.2 Criterion followed in the Observatory of Urban Vulnerability to estimate the State of Vulnerability of the entities (General Methodological Synthesis of the Catalog of Vulnerable Districts and Basic Indicators of Urban Vulnerability).....	89
Table 5.1 Characteristics demanded for an effective urban strategic planning: .....	107
Table 5.2 Investment on URBAN programs and ERDF support allocation.....	108
Table 5.3 Characteristics of Bottom-Up Decision support Systems.....	110
Table 5.4 Infrastructure variables and planning actions .....	114
Table 5.5 Asymmetry index and process results by regions.....	115
Table 5.6 Problem formulation, variables and framework results.....	120
Table 5.7 Comparison of the selected alternative with the sets of all and relevant alternatives .....	137

## Lista de Figuras:

Figura 1.1 Estructura de la tesis.....	7
Figure 2.1 Influence of approach on evolutive stage.....	25
Figure 2.2 Studies per evolutive stage and year.....	25
Figure 2.3 Cluster result.....	26
Figure 3.1 Method for selecting UVA models, General Workflow and Case-Study.....	50
Figure 3.2: UVA Framework, Detailed Workflow.....	52
Figure 3.3 Set of compromise solutions for period 1.....	62
Figure 3.4 Trade-off between Robustness and GOF for period 1.....	63
Figure 3.5 Trade-off between GOF and preferences for period 1.....	64
Figure 3.6 Compromise solutions for period 2.....	65
Figure 4.1 Relative preferences of experts for UV assessment indicators.....	87
Figure 4.2 Preferences for indicators.....	88
Figure 4.3 Absolute maps of vulnerability.....	95
Figure 4.4 Relative maps of vulnerability.....	95
Figure 4.5 Map of Valencia's state of vulnerability.....	96
Figure 4.6 Map of Valencia's evolution of its state of vulnerability.....	96
Figure 4.7 Map of Valencia's risk of vulnerability.....	97
Figure 5.1 Overall workflow and USP requirements achieved by the urban planning support system.....	111
Figure 5.2 Detailed workflow of the planning system and case study.....	112
Figure 5.3 Bottom-up propagation through multi-scale hierarchical systems.....	126
Figura 6.1 Cumplimiento requisitos por el método propuesto.....	145
Figura 6.2 Avances con respecto a OVU.....	146
Figura 6.3 Generalización análisis incertidumbre.....	147

## Lista de Vídeos:

Video 4.1. Visual analytics for displaying complex information. ....	80
Video 4.2. Visual analytics for bounding the space of solutions. ....	81
Video 4.3. Cluster analysis for synthesising the space of solutions. ....	81
Video 4.4. Bottom-up (from UVAM alternatives to entity's results) analysis. ....	82
Video 4.5. Top-down (from entity's results to UVAM alternatives) analysis. ....	82
Video 4.6. Tool for collecting expert relative preferences on indicators used for UVAM. ....	86
Video 4.7. Basic configuration of UVA framework. ....	91
Video 4.8. Generation of UVAM alternatives for Period 1. ....	91
Video 4.9. Generation of UVAM alternatives for Period 2. ....	92
Video 4.10. Synthesis of solutions and selection of an UVAM for Period 2. ....	92
Video 4.11. Visualisation of entities through maps for Period 2. ....	93
Video 5.1 Selection of relevant UIP. ....	130
Video 5.2 Selection of relevant scenarios and planning alternatives via D-ROSE. ....	132
Video 5.3 Selection of accompanying policy alternatives from clustered group. ....	134
