

DEGREE PROJECT IN MEDICAL TECHNOLOGY,
FIRST CYCLE, 15 CREDITS
STOCKHOLM, SWEDEN 2020

Evaluation of Using an Inexpensive Wearable Device – Movesense – to Measure Electromyography.

Marina Galiano Botella

Index

Contents

1. Introduction	2
1.1 Objective.....	3
1.2 Background	4
a. Surface Electromyogram	4
b. Musculoskeletal disorder (MSD)	8
c. Movesense sensor and Movesense Showcase App	9
2. Materials & Methods.....	10
2.1 Movesense Sensor	11
a. Movesense Sensor	12
b. Movesense Showcase App	14
2.2 Subjects	18
2.3 Experimental Design	19
2.4 Data Processing.....	22
3. Results	26
4. Discussion	39
5. Conclusion & future works.....	43
6. References	44
