Abstract	v
Resum	vii
Resumen	ix
List of Figures	xvi
List of Tables	xvii
<b>1 Objectives of the Thesis</b>	<b>1</b>
1.1 General Objective . . . . .	1
1.2 Motivation . . . . .	1
1.3 Partial Objectives . . . . .	2
1.3.1 To build a prototype that considers the client, the server and the protocol . . . . .	2
1.3.2 To conduct a performance evaluation study of web prefetching techniques considering real conditions . . . . .	2
1.3.3 To study real factors that affect the web prefetching limits, and quantify their impact . . . . .	2
1.3.4 To explore how web prefetching techniques can be improved . .	3
1.3.5 To propose a Low Cost Prediction Algorithm . . . . .	3
<b>2 Web Prediction and Prefetching</b>	<b>5</b>
2.1 Introduction . . . . .	5
2.2 Web Prefetching . . . . .	6
2.3 Web Prediction Algorithms . . . . .	7
2.4 Performance Evaluation . . . . .	9
2.5 Software Implementations . . . . .	10

<b>3</b>	<b>Delfos. Architecture Prototype with Prefetching Support</b>	<b>13</b>
3.1	Introduction . . . . .	13
3.2	Framework Architecture . . . . .	14
3.3	Prediction Engine: <i>Eprefes</i> . . . . .	14
3.3.1	Features . . . . .	15
3.3.2	Connectivity . . . . .	16
3.3.3	Serving requests . . . . .	17
3.3.4	Prediction algorithms . . . . .	17
3.4	Web Server: <i>Mod-prefetch</i> for Apache 2 . . . . .	21
3.5	Web Client: Web Prefetching in Mozilla . . . . .	21
3.6	Interrelation Between the Components . . . . .	23
3.7	Experiments in real environment . . . . .	23
3.8	Conclusions . . . . .	26
<b>4</b>	<b>Delfos: Evaluation Environment</b>	<b>27</b>
4.1	Introduction . . . . .	27
4.2	<i>CARENA</i> . . . . .	27
4.3	Modules for Evaluation . . . . .	28
4.3.1	Client Pool with <i>mod-trainer</i> . . . . .	28
4.3.2	Statistics gathering with <i>mod-stats</i> and <i>mod-report</i> . . . . .	29
4.4	Evaluation . . . . .	30
4.4.1	Performance indexes . . . . .	30
4.4.2	Workload Description . . . . .	31
4.5	Performance Evaluation Using Delfos . . . . .	33
4.5.1	Experiments . . . . .	33
4.5.2	System statistics . . . . .	37
4.6	Conclusions . . . . .	40
<b>5</b>	<b>Predict at Prefetch: a Technique to Improve Prefetching</b>	<b>43</b>
5.1	Introduction . . . . .	43
5.2	Predict at Prefetch (P@P) . . . . .	44
5.3	Experimental results . . . . .	45
5.3.1	Cost-Benefit . . . . .	46
5.3.2	Prediction related performance indexes . . . . .	48
5.3.3	Algorithm Storage Usage . . . . .	49
5.4	Conclusions . . . . .	50
<b>6</b>	<b>Theoretical limits of Web Prefetching in a real environment</b>	<b>53</b>
6.1	Introduction . . . . .	53
6.2	The Perfect Prediction Algorithm . . . . .	54
6.3	Conditions to Prefetch . . . . .	55
6.3.1	Maximum Number of Hints per Prediction . . . . .	55
6.3.2	Browser Idle Time . . . . .	57
6.3.3	Type of Hints . . . . .	59

6.4	Enhancing Web Prefetching . . . . .	61
6.4.1	Predict on Secondary . . . . .	61
6.4.2	POS and P@P Experimental Results . . . . .	61
6.5	Performance Comparison With Real Prediction Algorithms . . . . .	63
6.6	Conclusions . . . . .	65
<b>7</b>	<b>Referrer Graph: a low-cost prediction algorithm</b>	<b>67</b>
7.1	Introduction . . . . .	67
7.2	Referrer Graph . . . . .	68
7.2.1	General Description . . . . .	68
7.2.2	Theoretical Example . . . . .	68
7.2.3	Data Structures . . . . .	69
7.2.4	Learning Process . . . . .	71
7.2.5	Prediction Process . . . . .	72
7.2.6	Working Example . . . . .	72
7.3	Experimental Results . . . . .	75
7.3.1	Page Latency Saving and Byte Traffic Increase . . . . .	75
7.3.2	Resource Consumption . . . . .	76
7.4	Graph Pruning . . . . .	81
7.4.1	General Issues . . . . .	81
7.4.2	Proposed Pruning Algorithm . . . . .	82
7.4.3	Example of RG Pruning . . . . .	83
7.4.4	Experimental Results of Pruning . . . . .	85
7.5	Conclusions . . . . .	91
<b>8</b>	<b>Conclusions and Future Work</b>	<b>93</b>
8.1	Conclusions . . . . .	93
8.2	Summary of Contributions . . . . .	94
8.3	Future Work and Open Research . . . . .	94
<b>A</b>	<b>CARENA</b>	<b>97</b>
A.1	Introduction . . . . .	97
A.2	Logging web user requests . . . . .	98
A.3	Related work . . . . .	98
A.4	The CARENA Solution . . . . .	100
A.4.1	Programming Environment . . . . .	101
A.4.2	Capturing . . . . .	104
A.4.3	Saving and Importing . . . . .	105
A.4.4	Replying . . . . .	105
A.5	Working Example . . . . .	107
A.6	Conclusions . . . . .	109
