|--|------|
| <b>List of Figures</b> .....             | v    |
| <b>List of Tables</b> .....              | xiii |
| <br>                                     |      |
| <b>1. INTRODUCTION</b> .....             | 1    |
| 1.1. Overview of the Thesis.....         | 3    |
| 1.1.1. Motivation.....                   | 3    |
| 1.1.2. Challenges .....                  | 4    |
| 1.2. Objectives .....                    | 4    |
| 1.3. Structure of the Thesis .....       | 5    |
| <br>                                     |      |
| <b>1. INTRODUCCIÓN</b> .....             | 7    |
| 1.1. Visión General de la Tesis.....     | 10   |
| 1.1.1. Motivación.....                   | 10   |
| 1.1.2. Retos .....                       | 11   |
| 1.2. Objetivos .....                     | 11   |
| 1.3. Estructura de la Tesis .....        | 12   |
| <br>                                     |      |
| <b>2. LITERATURE REVIEW</b> .....        | 15   |
| 2.1. Water-Blown Polyurethane Foams..... | 18   |
| 2.1.1. Basics of Chemistry.....          | 18   |
| 2.1.2. Foam Components .....             | 20   |
| 2.1.3. Morphology .....                  | 24   |
| 2.1.4. Foaming Process .....             | 25   |

|           |   |           |
|-----------|---|-----------|
| 2.1.5.    | Cellular Structure and Density .....  | 28        |
| 2.1.6.    | Properties.....   | 30        |
| 2.1.7.    | Applications.....   | 31        |
| 2.2.      | Carbon Nanofillers .....  | 32        |
| 2.2.1.    | Carbon Black (CB) .....   | 33        |
| 2.2.2.    | Carbon Nanofibres (CNFs) .....  | 34        |
| 2.2.3.    | Carbon Nanotubes (CNTs).....  | 35        |
| 2.2.4.    | Graphene.....   | 38        |
| 2.3.      | Polymer Nanocomposite Foams Filled with CNPs .....                            | 41        |
| 2.3.1.    | Foaming Process .....   | 41        |
| 2.3.2.    | Morphology .....  | 43        |
| 2.3.3.    | Properties.....   | 44        |
| 2.3.4.    | Applications.....   | 49        |
| <b>3.</b> | <b>CARBON NANOPARTICLES.....</b>  | <b>51</b> |
| 3.1.      | Synthesis and Characterisation of Multi-Walled Carbon Nanotubes (MWCNTs)..... | 52        |
| 3.1.1.    | Synthesis of MWCNTs.....  | 52        |
| 3.1.2.    | Characterisation of MWCNTs.....   | 53        |
| 3.2.      | Functionalisation of MWCNTs.....  | 60        |
| 3.2.1.    | Characterisation of Functionalised MWCNTs .....                               | 60        |
| 3.3.      | Synthesis and Characterisation of Functionalised Graphene Sheets (FGS) ..     | 68        |
| 3.3.1.    | Synthesis of FGS.....   | 68        |
| 3.3.2.    | Characterisation of FGS .....   | 69        |
| 3.4.      | Conclusions.....  | 75        |

|   |            |
|---|------------|
| <b>4. FLEXIBLE POLYURETHANE NANOCOMPOSITE FOAMS .....</b> | <b>77</b>  |
| 4.1. Materials and Methods.....                           | 78         |
| 4.1.1. Materials .....                                    | 78         |
| 4.1.2. Synthesis .....                                    | 79         |
| 4.1.3. Characterisation .....                             | 81         |
| 4.2. Results and Discussion.....                          | 84         |
| 4.2.1. Rheology of Dispersions.....                       | 84         |
| 4.2.2. Kinetics of Foaming Evolution.....                 | 87         |
| 4.2.3. Morphological Analysis.....                        | 108        |
| 4.2.4. Differential Scanning Calorimetry (DSC) .....      | 118        |
| 4.2.5. Thermogravimetric Analysis (TGA).....              | 121        |
| 4.2.6. Dynamic Mechanical Analysis (DMA) .....            | 124        |
| 4.2.7. Electromagnetic Interference (EMI) Shielding.....  | 127        |
| 4.3. Conclusions.....                                     | 131        |
| <br>  |            |
| <b>5. RIGID POLYURETHANE NANOCOMPOSITE FOAMS .....</b>    | <b>135</b> |
| 5.1. Materials and Methods.....                           | 136        |
| 5.1.1. Materials .....                                    | 136        |
| 5.1.2. Synthesis .....                                    | 137        |
| 5.1.3. Characterisation .....                             | 137        |
| 5.2. Results and Discussion.....                          | 140        |
| 5.2.1. Rheology of Dispersions.....                       | 140        |
| 5.2.2. Kinetics of Foaming Evolution.....                 | 142        |
| 5.2.3. Morphological Analysis.....                        | 146        |
| 5.2.4. Thermogravimetric Analysis (TGA).....              | 151        |
| 5.2.5. Mechanical Properties.....                         | 153        |

|  |            |
|--|------------|
| 5.2.6. Electromagnetic Interference (EMI) Shielding..... | 156        |
| 5.3. Conclusions.....                                    | 160        |
| <b>6. CONCLUDING REMARKS.....</b>                        | <b>163</b> |
| <b>6. CONCLUSIONES.....</b>                              | <b>167</b> |
| <b>7. REFERENCES.....</b>                                | <b>171</b> |
| <b>8. LIST OF PUBLICATIONS.....</b>                      | <b>199</b> |
