

# INDEX

<b>GENERAL INTRODUCTION .....</b>	<b>1</b>
<b>1. ADAPTATIVE AND INNATE IMMUNE SYSTEM: a set of definitions .....</b>	<b>3</b>
<b>2. TOLL-LIKE RECEPTORS (TLRs): RECEPTORS WITH A NOBEL PRIZE.....</b>	<b>9</b>
2.1. TLR Family Members .....	9
2.2. TLR activation and signalling pathways.....	13
2.3. Re-defining the Main Role of TLRs.....	17
2.3.1. TLRs in Cell Fate Determination, Differentiation, and Neural Plasticity .....	18
2.3.2. The Role of TLRs in Neuroinflammation and Neurodegeneration .....	23
2.4. TLR in Spinal Cord Injury .....	28
<b>3. SPINAL CORD INJURY: PATHOPHYSIOLOGY AND CELL THERAPY .....</b>	<b>33</b>
3.1. Pathophysiology of the SCI .....	35
3.2. Neural Progenitor Cell Transplantation in SCI .....	40
<b>HYPOTHESIS AND OBJECTIVES .....</b>	<b>47</b>
<b>MATERIALS AND METHODS.....</b>	<b>51</b>
<b>1. ANIMAL MODELS.....</b>	<b>53</b>
1.1. Chapter 1 animal models.....	54
1.2. Chapter 2 animal models.....	54
1.2.1. Spinal cord compression model.....	56
1.2.2. Cell transplantation.....	57
1.2.3. Post-surgery Procedure .....	58
1.2.4. Functional locomotor test.....	59
1.2.5. Tissue Harvest for further histological and molecular analysis .....	63
1.3. Chapter 3 animal models.....	64

<b>2. CELL CULTURES</b> .....	<b>65</b>
<b>2.1. Bone Marrow-derived macrophages (BMDMs)</b> .....	<b>65</b>
2.1.1. BMDM polarization.....	66
<b>2.2. Neonatal microglial cell and Astrocytes from mixed cultures.</b> .....	<b>66</b>
<b>2.3. Adult microglial cell culture.</b> .....	<b>68</b>
<b>2.4. Neural Progenitor Cell Culture</b> .....	<b>69</b>
2.4.1. Neurosphere Disaggregation.....	69
2.4.2. Freezing and Thawing.....	70
2.4.3. NPC Culture in adherent conditions.....	70
2.4.4. Spontaneous Differentiation of NPC.....	71
2.4.5. NPC Population Doubling Analysis .....	71
2.4.6. NPC Proliferation Assay by BrdU Incorporation and Ki67 Immune detection .....	72
2.4.7. NPC Transfection with EGFP-LV .....	72
<b>2.5. Cell Stimulation</b> .....	<b>73</b>
<b>3. IMMUNOSTAINING</b> .....	<b>73</b>
3.1. Sample preparation.....	73
3.2. Immunofluorescence.....	74
3.3. Image Analysis.....	76
<b>4. RNA ISOLATION, CONVERSION TO CDNA AND QUANTITATIVE PCR</b> .....	<b>77</b>
<b>5. WESTERN BLOT: PROTEIN EXTRACTION AND IMMUNOBLOTTING</b> .....	<b>84</b>
<b>6. MICROSCOPY TECHNIQUES</b> .....	<b>87</b>
<b>7. FIGURE LAYOUT</b> .....	<b>87</b>
<b>8. STATISTICAL ANALYSIS</b> .....	<b>87</b>
<b>RESULTS</b> .....	<b>89</b>
<b>CHAPTER 1</b> .....	<b>93</b>
1.1. Introduction.....	95
1.2. Results .....	101

1.2.1. TLR2 and TLR4 Expression Maintain the NPC Population in the Postnatal Mouse Spinal Cord .....	101
1.2.2. TLR Expression by in vitro-Expanded NPCs Isolated from the Postnatal Mouse Spinal Cord .....	106
1.2.3. TLR2, but not TLR4, Regulates the Self-renewal of in vitro-Expanded NPCs Isolated from the Postnatal Mouse Spinal Cord.....	109
1.2.4. TLR2 and TLR4 in Differentially Contribution to the Formation of Mature Neurons and Glial Cells .....	115
1.3. Discussion.....	121
CHAPTER 2.....	127
2.1. Introduction.....	129
2.2. Results .....	135
2.2.1. <i>Spontaneous recovery of hind limb function after SCI requires of TLR4</i> .....	135
2.2.2. NPC, lacking TLR2 or TLR4, transplantation on functional neurological recovery after SCI.....	149
2.2.3. WT-NPCs partially rescue specific impaired locomotor skills exhausted in TLR4 deficient mice after severe spinal cord compression.....	162
2.3. Discussion.....	175
CHAPTER 3.....	183
3.1. Introduction.....	185
3.2. RESULTS .....	191
3.2.1. CSPG mediated the phenotypic conversion of BMDM from anti-inflammatory to pro-inflammatory .....	191
3.2.2. CSPG treatment reverts the anti-inflammatory phenotype in microglial cells in vitro but lees in comparison with BMDM.....	198
3.2.3. Metabolites derived from BMDMs treated with CSPGs modulate astrocyte.....	200
3.2.4. TLR4 pathway is essential to develop the inflammatory phenotype on M2 BMDM.....	203
3.3. Discusion .....	213
CONCLUSIONS.....	219
CHAPTER1.....	221

<b>CHAPTER 2:</b> .....	<b>222</b>
<b>CHAPTER 3:</b> .....	<b>223</b>
<b>BIBLIOGRAPHICAL REFERENCES</b> .....	<b>225</b>
<b>APPENDIX</b> .....	<b>271</b>
