Table of Contents

Acknowledgements……ii-iii

Abstract~Resumen~Resum……iv-v

Prologue……xiii

List of Tables……viii

List of Figures……ix-xi

List of Appendices……xii

Part 1: INTRODUCTION TO THE MAIN RESEARCH……1

a) From dual coding theory to AR and VR technologies……1

b) AR/VR-enhanced spatial environment for L2 training: a systematic review……3

Part 2: MAIN RESEARCH……17

Spatial mnemonics for L2 vocabulary recall……17

Publication 1 Methodological framework development. Quantitative testing: Augmented Reality and Visuospatial Bootstrapping for Second Language Vocabulary Recall……17

Publication 2 Application design and development. Qualitative testing: MnemoRoom4U: AR-Supported Mind Palace for L2 Vocabulary Recall……33

Publication 3 Serious game design and development. Quantitative and qualitative testing: Roman Palace: A Videogame for Second-Language Vocabulary Retention.51

Publication 4 Serious game and AMSTP-UE framework design. Bunker-Room Mnemonics for Second-Language Vocabulary Recall……68

Part 3: INTRODUCING SUPPLEMENTARY RESEARCH……82

Customized training for 21st century students……82

Publication 5 Survey-based study A: From generation gap to generation lap: Gen Z subcultures……84

Publication 6 Survey-based study B: Confronting challenges of non-formal education: A shift from book-based EFL to tailor-made, experimental syllabi……95

Publication 7 Case study A: Curriculum adaptation: gamifying, flipping the classroom and applying mnemonic techniques……..104

Publication 8 Case study B: Guadalingo in Teaching Spanish as a Foreign Language (FL)…….117

Part 4: DISCUSSION OF RESULTS AND LIMITATIONS……128

Part 5: CONCLUSION……132
