

## TABLE OF CONTENTS

RESUMO.....	11
ABSTRACT.....	14
RESUMEN.....	17
RESUM.....	20
GENERAL INTRODUCTION.....	23
OBJECTIVES.....	28
CHAPTER 1.....	30
Relationship between seminal plasma composition and sperm quality parameters of the catfish <i>Pseudoplatystoma reticulatum</i> .....	30
ABSTRACT .....	31
INTRODUCTION .....	31
MATERIALS AND METHODS .....	34
Fish handling.....	34
Sperm collection and analysis of seminal characteristics.....	34
Analysis of seminal plasma components .....	36
Statistical analysis.....	36
RESULTS.....	37
Sperm characteristics of <i>Pseudoplatystoma reticulatum</i> .....	37
Seminal plasma composition of <i>Pseudoplatystoma reticulatum</i> .....	38
Correlation between seminal plasma components and seminal characteristics of <i>Pseudoplatystoma reticulatum</i> .....	40
DISCUSSION.....	41
CONCLUSION .....	47
CHAPTER 2.....	48
Seminal plasma as part of the extender in cryopreservation of <i>Pseudoplatystoma reticulatum</i> semen: effect on sperm motility and subpopulations .....	48
ABSTRACT .....	49

<b>INTRODUCTION .....</b>	50
<b>MATERIALS AND METHODS .....</b>	53
Breeder management.....	53
Sperm collection and quality evaluation.....	54
Seminal plasma extractions and artificial seminal plasma compositions .....	54
Sperm cryopreservation.....	54
Cryopreserved-thawed sperm motility analysis.....	55
Fertilization test.....	56
DNA integrity .....	57
Sperm subpopulations analyses .....	58
Statistics.....	58
<b>RESULTS.....</b>	59
Cryopreserved-thawed sperm motility analysis .....	59
Fertilization test.....	62
DNA integrity .....	63
Sperm subpopulations analyses .....	68
<b>DISCUSSION.....</b>	75
<b>CONCLUSION .....</b>	82
<b>CHAPTER 3.....</b>	84
Effect of temperature and pH on the sperm motility of the European eel: in the context of climate change.....	84
<b>ABSTRACT .....</b>	85
<b>Introduction .....</b>	86
<b>Material and methods .....</b>	88
Fish maintenance and hormonal treatment .....	88
Sperm collection and sampling.....	89

<b>Sperm motility evaluation .....</b>	<b>89</b>
<b>Experiments.....</b>	<b>91</b>
<b>Experiment 1. Effect of seawater pH on sperm motility and longevity of the sperm .....</b>	<b>91</b>
<b>Experiment 2. The combined effect of seawater pH and diluent pH on sperm motility .....</b>	<b>92</b>
<b>Experiment 3. Effect of the seawater and extender temperature on sperm motility and kinetic parameters .....</b>	<b>92</b>
<b>Experiment 4. Effect of the seawater temperature on sperm longevity .....</b>	<b>93</b>
<b>Experiment 5. The combined effect of pH and seawater temperature on sperm motility .....</b>	<b>93</b>
<b>Statistical analyses.....</b>	<b>93</b>
<b>RESULTS.....</b>	<b>94</b>
<b>Experiment 1. Effect of seawater pH on sperm motility and longevity in eel sperm .....</b>	<b>94</b>
<b>Experiment 2. The combined effect of seawater pH and diluent pH on sperm motility .....</b>	<b>98</b>
<b>Experiment 3. Effect of seawater temperature on sperm motility and kinetic parameters .....</b>	<b>101</b>
<b>Experiment 4. Effect of seawater temperature on sperm longevity.....</b>	<b>102</b>
<b>Experiment 5. Combined effect of pH and seawater temperature on sperm motility .....</b>	<b>102</b>
<b>DISCUSSION.....</b>	<b>106</b>
<b>CONCLUSION .....</b>	<b>110</b>
<b>REFERENCES.....</b>	<b>111</b>
