ABSTRACT	1
RESUMEN	3
RESUM	5
GENERAL INTRODUCTION	7
1. Genetics resources and Genebanks	9
2. G2P-SOL initiative	10
3. Relevance of solanaceous crops: understanding the importance of tomato and eggplant.....	11
4. The case of tomato.....	13
Introduction	13
Tomato germplasm collections.....	15
Genetic and phenotypic diversity: an asset for enhancing genetic resources.....	17
Tomato Genetic Improvement: Current Trends and Strategies	19
Genomic and Biotechnological Innovations for Genetic Resources Enhancement	21
5. The case of eggplant.....	24
Highlight.....	25
Abstract.....	25
Introduction	26
Eggplant breeding challenges for the present and the future: the need for a breeding revolution.....	28
The eggplant gene pools and their potential for eggplant breeding enhancement....	32
Eggplant germplasm collections	36
Use of genetic resources in breeding: achievements and challenges	39
A new generation of genetic resources	42
Genomic and biotechnological tools to enhance the exploitation of genetic resources	47
Conclusions and future perspectives	48
References	51

OBJECTIVES	67
RESULTS	71
CHAPTER I. Origin and composition of the Solanaceae germplasm collection: tomato, pepper, eggplant and potato from the European project G2P-SOL	73
ABSTRACT.....	75
INTRODUCTION.....	76
MATERIALS AND METHODS.....	77
RESULTS AND DISCUSSION.....	79
REFERENCES.....	99
CHAPTER II. SILEX: A fast and inexpensive high-quality DNA extraction method suit-able for multiple sequencing platforms and recalcitrant plant species	103
ABSTRACT.....	105
BACKGROUND.....	106
MATERIALS.....	108
PROTOCOL.....	110
RESULTS.....	113
DISCUSSION.....	119
CONCLUSIONS.....	121
REFERENCE.....	122
CHAPTER III. Single primer enrichment technology (SPET) for high-throughput genotyping in tomato and eggplant germplasm	127
ABSTRACT.....	129
INTRODUCTION.....	130
MATERIALS AND METHODS.....	133
RESULTS.....	137
DISCUSSION.....	146
CONCLUSIONS.....	151
REFERENCES.....	153
CHAPTER IV. Analysis of the genetic and morphological variability of the tomato core collection of the G2P-SOL project	157
INTRODUCTION.....	159
MATERIAL AND METHODS.....	161

RESULTS AND DISCUSSION.....	166
REFERENCES.....	199
GENERAL DISCUSSION.....	203
GENERAL CONCLUSIONS.....	217
REFERENCES (GENERAL INTRODUCTION & DISCUSSION).....	221
SUPPLEMENTARY MATERIALS.....	231
CHAPTER I. Supplementary material.....	233
CHAPTER IV. Supplementary tables and figures.....	243
