

# Contents

Abstract .....	iii
Acronyms .....	xiii
Chapter 1 Introduction .....	1
1.1. State-of-the-Art of DTT Systems .....	1
1.1.1. First generation DTT systems .....	4
1.1.2. Second generation DTT systems .....	4
1.1.3. Mobile broadband systems .....	8
1.2. Motivation and Problem Statement .....	9
1.2.1. Motivation .....	9
1.2.2. Problem Statement.....	10
1.3. Objectives and Scope.....	13
1.3.1. Broadcast MIMO channel estimation.....	13
1.3.2. Broadcast MIMO signal processing .....	13
1.3.3. Broadcast MIMO practical gain and channel modeling.....	14
1.4. Thesis Outline and Contributions .....	14
1.5. List of Publication .....	18
1.5.1. International Journals .....	18
1.5.2. Papers in International Conference Proceedings .....	19
1.5.3. Contributions to Standardization Activities .....	20
Chapter 2 Background and Methodology .....	21
2.1. System Model Overview .....	21
2.2. DTTB System Overview .....	25
2.2.1. ATSC3.0 System Overview .....	26
2.2.2. Advanced ISDB-T System Overview.....	29

2.2.3.	5G Broadcast System Overview .....	34
2.3.	Channel Models .....	35
2.3.1.	AWGN channel .....	35
2.3.2.	Power imbalance channel .....	36
2.3.3.	Cross polarized channel .....	36
2.3.4.	Simple two path channel .....	37
2.3.5.	NGH mobile outdoor channel .....	37
2.4.	Multi-Antenna Receivers .....	39
2.4.1.	ZF Detection .....	41
2.4.2.	MMSE Detection .....	41
2.4.3.	MLD and Max-Log Demapping .....	42
2.5.	Simulations .....	42
2.5.1.	Channel Estimation .....	44
2.5.2.	System Performance Evaluation .....	45
2.6.	Laboratory Experiments .....	46
2.7.	Field Experiments .....	47
<b>Chapter 3</b>	<b>Broadcast MIMO Channel Estimation .....</b>	<b>51</b>
3.1.	Channel Estimation in ATSC 3.0 .....	51
3.1.1.	Pilot Encoding .....	51
3.1.2.	Pilot Decoding .....	52
3.1.3.	Pilot Boosting .....	55
3.2.	MIMO Pilot Boosting Analysis .....	57
3.3.	Channel Estimation Evaluation .....	60
3.3.1.	Pilot Boosting .....	60
3.3.2.	Frequency Interpolation .....	63
3.3.3.	MIMO Scattered Pilot Recommendation .....	66
3.4.	Conclusions .....	69

---

Chapter 4	Broadcast MIMO Signal Processing.....	71
4.1.	Low-Complexity Demapping.....	71
4.1.1.	Demapping Algorithm.....	71
4.1.2.	Demapping Evaluation.....	75
4.2.	MIMO Precoding.....	77
4.2.1.	Precoding Schemes.....	78
4.2.2.	Precoding Evaluation.....	78
4.3.	Space Time Coding based SFN.....	84
4.3.1.	Space Time Coding Schemes.....	84
4.3.2.	Space Time Coding Evaluation.....	88
4.4.	Conclusions.....	91
Chapter 5	Broadcast MIMO Practical Gain and Channel Modeling...	93
5.1.	Evaluation in Tokyo area.....	93
5.1.1.	Advance Verification in Laboratory.....	96
5.1.2.	Field Experiments.....	97
5.1.3.	Follow-up Verification in Laboratory.....	104
5.2.	Evaluation in Osaka area.....	106
5.2.1.	Field Experiments.....	106
5.2.2.	Follow-up Verification in Simulation.....	110
5.2.3.	Channel Modeling.....	113
5.2.4.	MIMO Practical Gain.....	119
5.3.	Conclusions.....	123
Chapter 6	Conclusions and Future Work.....	127
6.1.	Conclusions.....	127
6.1.1.	Broadcast MIMO channel estimation.....	127
6.1.2.	Broadcast MIMO signal processing.....	128
6.1.3.	Broadcast MIMO practical gain and channel modeling.....	130

6.2. Future Work.....	131
Annex A: Ph.D. Dissertation Related Projects .....	133
Technical Forums .....	133
Research Projects.....	134
References .....	135
