Contents

Declaration of Authorship . . . iii

Chapter 1 Introduction . . . 1
1.1 Motivation . . . 2
1.1.1 Big players . . . 3
1.2 Clinical use case . . . 4
1.3 Main objective . . . 6
1.4 Main contributions . . . 7
1.4.1 ***Unsupervised*** *learning strategy* . . . 8
1.4.2 ***Federated learning*** *based strategy* . . . 9
1.4.3 ***Contrastive learning*** *based strategy* . . . 9
1.5 Framework . . . 9
1.6 Outline . . . 10

Chapter 2 Towards More Transparent and Accurate Cancer Diagnosis . . . 13
2.1 Introduction . . . 15
2.1.1 Segmentation . . . 15
2.1.2 Classification . . . 16
2.1.3 Content-Based Medical Image Retrieval (CBMIR) . . . 17
2.2 Material . . . 19
2.3 Methodology . . . 20
2.3.1 Training . . . 21
2.3.2 Indexing and saving . . . 22
2.3.3 Searching . . . 22
2.3.4 Evaluation . . . 23
2.4 Discussion and results . . . 24
2.4.1 Validation on an external data set . . . 27
2.4.2 Visual evaluation . . . 28
2.4.3 Comparing UCBMIR with a classifier . . . 31
2.4.4 Limitations . . . 31
2.5 Conclusion . . . 32
2.6 Future work . . . 32
2.7 Acknowledgment . . . 33

Chapter 3 Impacts of color normalization on CBMIR . . . 35
3.1 Introduction . . . 37
3.2 Related work . . . 38
3.2.1 Content-Based Image Retrieval . . . 38
3.2.2 Color normalization . . . 39
3.3 Methodology . . . 40
3.3.1 Pre-processing . . . 40
3.3.2 Feature extractor . . . 41
3.3.3 Searching . . . 42

3.4 Material . . . 42
3.5 Experiments and Results . . . 42
3.5.1 Pre-processing . . . 42
3.5.2 CBMIR results . . . 43
3.5.3 Visual evaluation . . . 45
3.5.4 Comparing the results of CBHIR with a classifier . . . 45
3.6 Conclusion . . . 47
3.7 Future work . . . 49

Chapter 4 Federated Content-Based Medical Image Retrieval . . . 51
4.1 Introduction . . . 53
4.2 Related work . . . 55
4.2.1 Content-Based Medical Image Retrieval (CBMIR) . . . 55
4.2.2 Federated Learning (FL) . . . 56
4.3 Experiments . . . 56
4.3.1 Materials . . . 58
BreaKHis . . . 58
CAMELYON17 (CAM17) . . . 58
4.3.2 Data distribution . . . 60
4.3.3 Training Convolutional Auto Encoder in each node . . . 60
4.3.4 Local Training . . . 61
4.3.5 Federated learning configuration . . . 62
4.4 Discussion and Results . . . 63
4.4.1 Evaluation . . . 63
4.4.2 Results of EXP 1 . . . 64
4.4.3 Results of EXP 2 . . . 65
4.5 Conclusion . . . 71
4.6 Future work . . . 71

Chapter 5 Siamese Content-based Search Engine . . . 73
5.1 Introduction . . . 75
5.2 Methodology . . . 77
5.2.1 Siamese network . . . 77
5.2.2 Contrastive loss . . . 79
5.2.3 Search engine . . . 80
5.3 Material and Experimental setup . . . 81
5.3.1 Material . . . 81
Breast cancer data set . . . 81
Spitzoid melanocytic data set . . . 81
5.3.2 Experimental setting . . . 82
Breast-twins in details . . . 82
Skin-twins in details . . . 83
5.4 Results and Discussion . . . 83
5.4.1 Results of Breast-twins . . . 83
5.4.2 Results of Skin-twins . . . 87
5.4.3 STUMP searching . . . 89
5.4.4 Comparison with classification approaches . . . 91
5.5 Conclusions and future lines . . . 93
5.6 Author Contributions . . . 94
5.7 Acknowledgment . . . 94

Chapter 6 Conclusion 95
6.1 Global remarks 96
6.2 Specific remarks 96
6.3 Future work 98

Merits 99
