# Contents

1	INTRODUCTION	<b>1</b>
1.1	Motivation and main goals . . . . .	2
1.2	Contributions of the thesis . . . . .	3
1.3	Research context . . . . .	3
1.4	Outline . . . . .	3
2	CHARACTERIZING AND GENERATING WORKLOAD FOR WEB PERFORMANCE EVALUATION	<b>5</b>
2.1	Workload models and the current Web . . . . .	5
2.2	Web workload generators overview . . . . .	9
2.2.1	Software tools study . . . . .	10
2.2.2	A survey on reproducing user's dynamism . . . . .	22
2.3	Summary . . . . .	26
3	DWEB: MODELING USER'S DYNAMISM ON WEB WORKLOAD CHARACTERI- ZATION	<b>27</b>
3.1	The user's navigation . . . . .	27
3.2	The user's roles . . . . .	31
3.3	Summary . . . . .	32
4	GUERNICA: A WORKLOAD GENERATOR FOR CURRENT WEB	<b>33</b>
4.1	The application suite . . . . .	33
4.2	Testing phases . . . . .	35
4.3	Architecture . . . . .	38
4.4	Main features . . . . .	39
4.5	Case study . . . . .	40
4.6	Summary . . . . .	44
5	GUERNICA VALIDATION: A NEW TESTBED FOR WEB PERFORMANCE EVALUATION	<b>47</b>
5.1	The TPC-W framework . . . . .	48
5.2	Testbed architecture . . . . .	49

## CONTENTS

---

5.3	Experimental setup . . . . .	51
5.4	Performance metrics . . . . .	52
5.5	GUERNICA validation . . . . .	52
5.6	Summary . . . . .	61
6	THE IMPACT OF DYNAMIC USER WORKLOADS ON WEB PERFORMANCE	<b>63</b>
6.1	Workload design . . . . .	63
6.1.1	Considering dynamism on user's navigations . . . . .	64
6.1.2	One step ahead: evolving user's profile using dynamic roles . . . . .	66
6.2	Impact of the dynamic workloads on web system performance . . . . .	69
6.3	Summary . . . . .	76
7	THE IMPACT OF USER-BROWSER INTERACTION ON WEB PERFORMANCE	<b>77</b>
7.1	Workload design . . . . .	77
7.1.1	The back button: rapid return to recently visited pages . . . . .	78
7.1.2	Optimizing user productivity: the parallel tab browsing behavior . . . . .	79
7.2	Impact of UBI on web performance . . . . .	83
7.3	Summary . . . . .	90
8	CONCLUSIONS AND OPEN RESEARCH LINES	<b>93</b>
8.1	Conclusions . . . . .	93
8.2	Open research lines . . . . .	94
8.3	Publications related to the thesis . . . . .	95
A	ACRONYMS	<b>99</b>
B	GLOSSARY	<b>101</b>
C	BIBLIOGRAPHY	<b>103</b>
