

# CONTENTS

<b>Chapter 1.</b> Introduction.....	21
<b>Chapter 2.</b> Modelling native fish richness to evaluate the effects of hydromorphological changes and river restoration (Júcar River Basin, Spain).....	37
<b>Chapter 3.</b> Role of invasive species and habitat degradation on freshwater native fish diversity in Mediterranean River Basins.....	73
<b>Chapter 4.</b> A comparison of artificial neural networks and random forests to predict native fish species richness in Mediterranean rivers.....	107
<b>Chapter 5.</b> Modelling factors affecting the presence/absence and density of <i>Luciobarbus guiraonis</i> (Júcar River Basin, Spain).....	137
<b>Chapter 6.</b> Conclusion and Future Work.....	169
