

This architectural elevation drawing depicts a long, multi-story building facade. The structure is characterized by a repetitive grid of arched windows, each framed by decorative moldings. The facade is divided into sections by vertical grid lines labeled A through S. The building features a series of columns and arches, with decorative elements like balustrades and cornices. The drawing includes sketched trees behind the building to provide context. The overall style is a detailed line drawing with some shading to indicate depth and form.
