Contents

1 Motivation, Hypothesis and Objectives 1
1.1 Motivation 1
1.2 Hypothesis 3
1.3 Objectives 4
1.4 Structure of the thesis 5

2 Heart Physiology, Electrocardiography and Atrial Fibrillation 7
2.1 Heart anatomy and physiology 8
2.1.1 Heart anatomy 8
2.1.2 Electrical activation of the heart 9
2.2 Electrocardiography concepts 13
2.2.1 The electrocardiogram 13
2.2.2 Leads of the standard ECG 13
2.2.3 Composing waves of the ECG 18
2.2.4 Diagnosis 19
2.3 Atrial Fibrillation 20
2.3.1 Definition and epidemiology 20
2.3.2 Classification of AF 21
2.3.3 Mechanisms of AF 22
2.3.4 Treatment of AF 24

3 Materials and Methodology 27
3.1 Materials 28
3.1.1 Database analyzed in the prediction of AF termination 28
3.1.2 Database studied in the early prediction of AF termination 29
3.1.3 Database analyzed in the discrimination between paroxysmal and persistent AF 29
3.2 Methodology

3.2.1 Atrial Fibrillation organization estimation

3.2.2 Signal conditioning and atrial activity extraction

3.2.3 Main Atrial Wave

3.2.4 Studied metrics to compute AF organization

3.2.5 Application of the studied metrics

3.2.6 Statistical analysis

4 Results

4.1 Nonlinearity and non-stationarity

4.2 Prediction of AF termination

4.3 Optimal computational parameters for H(2)

4.4 Early prediction of AF termination

4.5 Discrimination between paroxysmal and persistent AF

5 Discussion

5.1 Prediction of AF termination

5.1.1 Comparison with previous predictors of AF termination

5.1.2 Performance of the studied metrics

5.1.3 Interpretation of the studied metrics values

5.1.4 Statistical analysis

5.2 Early prediction of AF termination

5.2.1 Optimal computational parameters for H(2)

5.2.2 Study of AF organization time course before AF spontaneous termination

5.3 Classification between paroxysmal and persistent AF

5.3.1 Comparison with previous works

5.3.2 Clinical interpretation of the results

5.4 Limitations of the study
6 Conclusions, Future Lines and Contributions

6.1 Conclusions

6.2 Future Lines

6.3 Contributions

6.3.1 Publications

6.3.2 Funding
