Contents

1 Motivation, Hypothesis and Objectives **1**

1.1 Motivation 1

1.2 Hypothesis 3

1.3 Objectives 4

1.4 Structure of the thesis 5

2 Heart Physiology, Electrocardiography and Atrial Fibrillation **7**

2.1 Heart anatomy and physiology 8

2.1.1 Heart anatomy 8

2.1.2 Electrical activation of the heart 9

2.2 Electrocardiography concepts 13

2.2.1 The electrocardiogram 13

2.2.2 Leads of the standard ECG 13

2.2.3 Composing waves of the ECG 18

2.2.4 Diagnosis 19

2.3 Atrial Fibrillation 20

2.3.1 Definition and epidemiology 20

2.3.2 Classification of AF 21

2.3.3 Mechanisms of AF 22

2.3.4 Treatment of AF 24

3 Materials and Methodology **27**

3.1 Materials 28

3.1.1 Database analyzed in the prediction of AF termination 28

3.1.2 Database studied in the early prediction of AF termination 29

3.1.3 Database analyzed in the discrimination between paroxysmal and persistent AF 29

3.2 Methodology 30

3.2.1 Atrial Fibrillation organization estimation 30

3.2.2 Signal conditioning and atrial activity extraction 35

3.2.3 Main Atrial Wave 39

3.2.4 Studied metrics to compute AF organization 40

3.2.5 Application of the studied metrics 50

3.2.6 Statistical analysis 54

4 Results **57**

4.1 Nonlinearity and non-stationarity 57

4.2 Prediction of AF termination 60

4.3 Optimal computational parameters for H(2) 72

4.4 Early prediction of AF termination 77

4.5 Discrimination between paroxysmal and persistent AF 80

5 Discussion **83**

5.1 Prediction of AF termination 84

5.1.1 Comparison with previous predictors of AF termination 84

5.1.2 Performance of the studied metrics 85

5.1.3 Interpretation of the studied metrics values 87

5.1.4 Statistical analysis 88

5.2 Early prediction of AF termination 89

5.2.1 Optimal computational parameters for H(2) 90

5.2.2 Study of AF organization time course before AF spontaneous termination 90

5.3 Classification between paroxysmal and persistent AF 92

5.3.1 Comparison with previous works 92

5.3.2 Clinical interpretation of the results 93

5.4 Limitations of the study 94

6 Conclusions, Future Lines and Contributions **97**

6.1 Conclusions 97

6.2 Future Lines 99

6.3 Contributions 99

6.3.1 Publications 99

6.3.2 Funding 101

Bibliography **103**

List of Figures **123**

List of Tables **127**

List of Acronyms **129**
