<b>Resum .....</b>	<b>i</b>
<b>Resumen .....</b>	<b>v</b>
<b>Abstract .....</b>	<b>ix</b>
<b>Chapter 1. Introduction .....</b>	<b>1</b>
1.1. The Arecaceae family.....	3
1.1.1. General characteristics .....	3
1.1.2. Uses and economic importance.....	3
1.1.3. Major diseases and pests .....	3
1.2. The Red palm weevil, <i>Rhynchophorus ferrugineus</i> .....	4
1.2.1. Systematic classification.....	4
1.2.2. Origin, distribution, and economic importance .....	5
1.2.3. Host plants.....	7
1.2.4. Life cycle, morphology and bio-ecology.....	8
1.2.5. Number of generations and rate of multiplication.....	12
1.2.6. Damage and symptomatology .....	12
1.2.7. Management .....	13
1.3. Ecology and behaviour of <i>Rhynchophorus ferrugineus</i> .....	16
1.3.1. Potential worldwide distribution .....	16
1.3.2. Distribution of developmental instars inside infested palm trees.....	17
1.3.3. Seasonal and diurnal activity.....	18
1.3.4. Locomotion, dispersal, and spatial distribution.....	19
1.3.5. Chemical ecology and olfactory behaviour .....	19
1.3.6. Visual attraction .....	20
<b>Chapter 2. Rationale and Objectives .....</b>	<b>21</b>
<b>Chapter 3. Study of chromatic preference of <i>Rhynchophorus ferrugineus</i> (Coleoptera: Dryophthoridae) adults using bucket traps.....</b>	<b>25</b>

## Table of contents

---

3.1. Introduction .....	28
3.2. Materials and methods.....	30
3.2.1. Trap characteristics .....	30
3.2.2. Test with olfactory attractants .....	30
3.2.3. Test without olfactory attractants .....	31
3.2.4. Spectral reflectance .....	31
3.2.5. Female/male ratio of natural populations .....	32
3.2.6. Statistical analysis .....	32
3.3. Results .....	33
3.3.1. Test with olfactory attractants .....	33
3.3.2. Internal trap climatic conditions.....	34
3.3.3. Test without olfactory attractants .....	34
3.3.4. Female/male ratio.....	35
3.3.5. Spectral reflectance .....	36
3.4. Discussion and conclusions.....	37
3.5. Acknowledgements .....	39
<b>Chapter 4. Study of the flying ability of <i>Rhynchophorus ferrugineus</i> (Coleoptera: Dryophthoridae) adults using a computer-monitored flight mill .....</b>	<b>41</b>
4.1. Introduction .....	44
4.2. Materials and methods.....	45
4.2.1. Experimental insects .....	45
4.2.2. Flight mill design .....	46
4.2.3. Flight parameters measured .....	47
4.2.4. Statistical analysis .....	48
4.3. Results .....	48
4.3.1. Body size.....	48
4.3.2. Effect of age and sex on the percentage of flying insects .....	49

---

4.3.3. Effect of sex, age, and body length on flight performance.....	50
4.3.4. Flight classification .....	54
4.4. Discussion.....	56
4.5. Acknowledgements .....	59
<b>Chapter 5. Flight behaviour and dispersal of <i>Rhynchophorus ferrugineus</i> (Coleoptera: Dryophthoridae) adults using mark-release-recapture method .....</b>	<b>61</b>
5.1. Introduction .....	64
5.2. Materials and methods.....	66
5.2.1. Experimental insects.....	66
5.2.2. Marking technique.....	66
5.2.3. MRR experiment 1 .....	67
5.2.4. MRR experiment 2 .....	68
5.2.5. Statistical analysis .....	69
5.3. Results .....	72
5.3.1. Features of experimental insects .....	72
5.3.2. Weevil take-off.....	74
5.3.3. Weevil flight mobility .....	75
5.4. Discussion.....	78
5.4.1. Influence of sex on take-off and flight mobility.....	78
5.4.2. Weevil take-off.....	78
5.4.3. Weevil flight mobility .....	79
5.5. Conclusions .....	81
5.6. Acknowledgements .....	82
<b>Chapter 6. General discussion.....</b>	<b>83</b>
<b>Chapter 7. Conclusions .....</b>	<b>89</b>
<b>Chapter 8. References .....</b>	<b>93</b>
