

Investigating the best methods for structural stabilization procedures for  
Historical earthen building conservation in Saudi Arabia: a technology–  
led construction analysis.

Doctoral thesis

## Table of Contents

Table of Figures.....	12
CHAPTER ONE .....	15
INTRODUCTION .....	15
1.1. Introduction.....	16
1.2. Statement of the problem .....	18
1.3. Research questions .....	22
1.4. Objectives of the study.....	23
1.5. Scope and limitation.....	24
1.6. Research methodology.....	25
1.7. Research structure.....	28
CHAPTER TWO .....	30
SAUDI ARABIA ENVIRONMENTAL FEATURES AND REGIONAL ARCHITECTURE CHARACTERS.....	30
2.1. Saudi Arabia environmental feature.....	31
2.2. Regional Architecture of Saudi Arabia.....	40
2.3. Review of Construction Systems of Saudi Arabia.....	56
2.4. Summary.....	61
CHAPTER THREE.....	63
EARTH CONSTRUCTION AND HISTORY.....	63
3.1. History of Earth Building.....	65
3.2. Mud Construction in Saudi Arabia .....	71
3.3. The Construction Process.....	77

3.4. Cob Construction .....	86
3.5. Modern Method of House Construction.....	93
3.6. Summary.....	97
CHAPTER FOUR.....	98
THE FUNDAMENTAL BEHAVIOUR AND CHARACTERISTICS OF EARTHEN CONSTRUCTION MATERIAL.....	98
4.1. Fundamental of Soil Science and Adobe Construction.....	99
4.2. The Unsaturated Soil Mechanics .....	106
4.3. Role of Clay.....	110
4.4. Role of Stabilizer .....	111
4.5. Dimensional Stability Test.....	118
4.6. In Summary.....	120
CHAPTER FIVE.....	121
BUILDING WITH EARTH AND SOIL TYPES IN SAUDI ARABIA.....	121
5.1. Soil Types.....	122
5.2. Soils of Saudi Arabia.....	135
5.3. The Need for Improvement .....	138
5.4. Public Awareness.....	142
5.5. Absence of Adequate Research.....	144
5.6. Building with Earth in Saudi Arabia.....	145
5.7. Deterioration and Pathology of Earthen Architecture .....	149
5.8. Summary.....	162
CHAPTER SIX.....	163

REVIEWING CONSTRUCTION TECHNIQUE OF HADRAMOUT, YEMEN AND	
MHAMID.....	163
6.1. Hadhramaut, Yemen Architectures.....	165
6.2. South of Morocco .....	189
6.3. Laboratory Study on the Mud Architecture Materials in Yemen by Ramodah.....	197
CHAPTER SEVEN.....	212
MATERIALS AND CONSERVATION TECHNIQUE RESULTS AND	
DISCUSSION.....	212
7.1. Before Conservation.....	213
7.2. Listing and Conservation Areas.....	218
7.3. The Rationale of the Documentation Process.....	220
7.4. Earth Materials.....	222
CHAPTER EIGHT.....	242
PROPOSALS FOR CONSERVATION.....	242
8.1. Description of the Maintenance and/or Repairing Process Superficial Cracks.....	244
8.2. TEMPORARY REINFORCEMENT OF A STRUCTURE ELEMENT.....	251
8.3. FOUNDATION ISSUES .....	253
8.4. FILLING IN HOLES AND GAPS .....	257
8.5. REBUILDING A COLLAPSED WALL.....	260
8.6. WATER.....	263
8.7. FACADE REPAIR.....	269
CHAPTER NINE.....	273
THE ACCEPTABILITY OF EARTH AND RECOMMENDATIONS.....	273

9.1 Reasons of Non-Acceptance .....	274
9.2 Recommendations.....	287
CHAPTER TEN.....	289
CONCLUSIONS .....	289
10. 1 General Conclusions .....	291
10.2 Technical Conclusions.....	296
BIBLIOGRAPHY .....	301
INDEX .....	314
