RESEARCH DATA SERVICES *in* European Academic Research Libraries

one hundred and nineteen libraries

FROM 22 COUNTRIES TOOK OUR SURVEY. ALMOST ALL SAID THEY CURRENTLY OFFER CONSULTATIVE RESEARCH DATA SERVICES, OR WILL IN THE NEXT TWO YEARS.

of libraries discuss Research Data Services with others on campus

VS

which currently have policies relating to Research Data Services

TWO-THIRDS

OF LIBRARY DIRECTORS STRONGLY AGREE: **LIBRARIES NEED TO OFFER RESEARCH DATA SERVICES TO REMAIN RELEVANT**

WHY THIS IS IMPORTANT

Increasing amounts of scientific data are being collected, stored, analyzed and shared globally.

Solid Research Data Management is essential to ensure the transparency of scientific research, to preserve and reuse data, and to advance knowledge.

Academic libraries can help, and this LIBER survey shows what is currently being done across Europe.

91%

collaborate within their institution regarding Research Data Services, and 77% collaborate with other institutions

39% 
provide data storage

OF LIBRARY DIRECTORS SAY THAT LOSING DATA PUTS FUTURE SCHOLARSHIP AT RISK

“RESEARCH DATA IS INCREASINGLY SEEN AS AN **ESSENTIAL PART** OF THE SCHOLARLY RECORD.”

91%

collaborate within their institution
regarding Research Data Services, and
77% collaborate with other institutions

A por la meta...
