

Table of contents

Abstract	i
Resumen	vi
Resum	xii
Glossary	xviii
Chapter 1. Introduction	33
1.1 Overview on Tissue Engineering.....	35
1.2 Chitosan.....	39
1.2.1 Chemical structure and resource.....	41
1.2.2 Deacetylation degree.....	43
1.2.3 Molecular weight	44
1.2.4 Solubility	45
1.2.5 Crystallinity.....	46
1.3 Chemical modification of chitosan.....	49
1.3.1 N-alkylation chitosan reaction	51
1.3.2 N-quaternization of Chitosan	52
1.3.3 N-acetylation	53

1.3.4 N-carboxymethylation	54
1.4 Chitosan hydrogels.....	57
1.5 Chitosan biodegradation	62
Chapter 2. Hypothesis, Objectives and Outline.....	67
2.1 Hypothesis	69
2.2 Objectives	71
2.3 Outline.....	73
Chapter 3. Physico-chemical characterization of chitosan.....	77
3.1 Determining the influence of N-acetylation on water sorption in chitosan films.....	79
3.1.1 Abstract.....	79
3.1.2 Introduction.....	81
3.1.3 Materials and methods.....	83
3.1.4 Results and discussion	90
3.1.5 Conclusions.....	105
3.2 Kinetic study of thermal degradation of chitosan as a function of deacetylation degree	107
3.2.1 Abstract.....	107
3.2.2 Introduction.....	109
3.2.3 Materials and methods.....	116
3.2.4 Results and discussion	118
3.2.5 Conclusions.....	134
3.3 Effect of neutralization and cross-linking on the thermal degradation of chitosan electrospun membranes.....	136
3.3.1 Abstract.....	136
3.3.2 Introduction.....	138
3.3.3 Materials and methods.....	142

3.3.4 Results and discussion	144
3.3.5 Conclusions.....	160
Chapter 4. Biodegradable chitosan-poly(ϵ-caprolactone) copolymer networks	163
4.1. Abstract.....	165
4.2 Introduction.....	167
4.3 Materials and methods.....	169
4.4 Results and discussion.....	177
4.5 Conclusions.....	196
Chapter 5. Fast degrading polymer networks based on carboxymethyl chitosan.....	199
5.1 Abstract.....	201
5.2 Introduction.....	203
5.3 Materials and methods.....	206
5.4 Results and discussion.....	221
5.5 Conclusions.....	253
Chapter 6. Synthesis of highly swellable hydrogels of water-soluble carboxymethyl chitosan and poly(ethylene glycol).	256
6.1 Abstract.....	258
6.2 Introduction.....	260
6.3 Materials and methods.....	262
6.4 Results and discussion.....	269
6.5 Conclusions.....	289
Chapter 7. Conclusions.....	292
Chapter 8. Bibliography	301

Chapter 9. Publications.....	335
