

# Index

|  |    |
|--|----|
| <b>Chapter 1: Introduction</b>   | 1  |
| 1.1. Rabbit production   | 2  |
| 1.1.1. Rabbit meat characteristics   | 2  |
| 1.1.2. Rabbit meat production  | 3  |
| 1.2. Genetic improvement in rabbits  | 4  |
| 1.2.1. Selection for litter size   | 6  |
| 1.2.1.1. Genetic parameters  | 6  |
| 1.2.1.2. Response to selection for litter size   | 9  |
| 1.2.2. Litter size components: ovulation rate and prenatal survival  | 12 |
| 1.2.2.1. Ovulation rate  | 12 |
| <i>Ovulation process</i>   | 12 |
| <i>Estimation of ovulation rate</i>  | 14 |
| 1.2.2.2. Prenatal survival.  | 15 |
| <i>Embryonic and foetal development</i>  | 15 |
| <i>First stages of development until implantation</i>  | 15 |
| <i>Placentation and late stages of gestation</i>   | 16 |
| <i>Causes and distribution of prenatal mortality</i>   | 18 |
| <i>Estimation of prenatal survival</i>   | 20 |
| 1.2.2.3. Selection for ovulation rate  | 20 |
| <i>Genetic parameters</i>  | 21 |
| <i>Response to selection</i>   | 23 |
| <i>High ovulation rate and prenatal mortality</i>  | 23 |
| 1.2.2.4. Selection for uterine capacity  | 26 |
| 1.2.2.5. Selection for ovulation rate and litter size  | 29 |
| 1.3. References  | 30 |
| <b>Chapter 2: Objectives</b>   | 46 |
| 2.1. Objectives  | 47 |
| <b>Chapter 3: Selection for Ovulation Rate and Litter Size Using Independent Levels in Rabbits: Genetic Parameters, Direct and Correlated Responses on Reproductive Traits</b> | 48 |
| 3.1. Abstract  | 49 |
| 3.2. Introduction  | 50 |

|  |    |
|--|----|
| 3.3. Materials and methods   | 51 |
| 3.3.1. Animals and experimental design   | 51 |
| 3.3.2. Traits  | 52 |
| 3.3.3. Statistical Analysis  | 53 |
| 3.4. Results and discussion  | 55 |
| 3.4.1. Genetic parameters  | 56 |
| 3.4.1.1. Heritability  | 56 |
| 3.4.1.2. Repeatability ( $r$ )   | 59 |
| 3.4.1.3. Genetic correlations between litter size and other traits   | 60 |
| 3.4.1.4. Genetic correlations between ovulation rate and other traits  | 62 |
| 3.4.1.5. Correlations between permanent effects  | 63 |
| 3.4.1.6. Phenotypic correlations   | 64 |
| 3.4.2. Response to selection   | 68 |
| 3.4.2.1. Selection for ovulation rate  | 68 |
| 3.4.2.2. Selection by independent culling levels for ovulation rate and litter size  | 71 |
| 3.5. Conclusion  | 74 |
| 3.6. References  | 74 |
| <b>Chapter 4: Selection for Ovulation Rate and Litter Size Using Independent Levels in Rabbits: Genetic Parameters and Correlated Responses on Growth Traits</b> | 81 |
| 4.1. Abstract  | 82 |
| 4.2. Introduction  | 83 |
| 4.3. Materials and methods   | 84 |
| 4.3.1. Animals and experimental design   | 84 |
| 4.3.2. Traits  | 85 |
| 4.3.3. Statistical Analysis  | 86 |
| 4.4. Results and discussion  | 88 |
| 4.4.1. Genetic parameters  | 89 |
| 4.4.1.1. Heritability  | 89 |
| 4.4.1.2. Maternal effect ( $m^2$ ) and common litter effect ( $c^2$ )  | 90 |
| 4.4.1.3. Correlations between reproductive traits and growth traits  | 92 |

|  |     |
|--|-----|
| 4.4.1.4. Response to selection   | 95  |
| 4.5. Conclusion  | 97  |
| 4.6. References  | 97  |
| <b>Chapter 5: Effect of Increased Ovulation Rate on Embryo and Foetal Survival as A Model for Selection by Ovulation Rate in Rabbits</b> | 101 |
| 5.1. Abstract  | 102 |
| 5.2. Introduction  | 104 |
| 5.3. Materials and methods   | 105 |
| 5.3.1. Animals   | 105 |
| 5.3.2. Treatment with eCG  | 105 |
| 5.3.3. Traits  | 105 |
| 5.3.4. Statistical Analyses  | 106 |
| 5.4. Results and discussion  | 107 |
| 5.4.1. Ovulation rate, number of implanted embryos and foetuses  | 109 |
| 5.4.2. Survival rates  | 110 |
| 5.4.3. Placenta and foetus weight  | 113 |
| 5.5. Conclusion  | 115 |
| 5.6. References  | 116 |
| <b>Chapter 6: General Discussion</b>   | 120 |
| 6.1. Background  | 121 |
| 6.2. Relevant findings   | 123 |
| 6.2.1. Selection for ovulation rate  | 123 |
| High ovulation rate and prenatal mortality   | 124 |
| Selection for ovulation rate and litter size   | 126 |
| 6.3. References  | 129 |
| <b>Chapter 7: Conclusions</b>  | 135 |
| Genetics and environmental parameters  | 136 |
| Response to selection  | 136 |
| High ovulation rate and prenatal mortality   | 137 |
