Summary
Resumen
Resum

Section 1: Background

Chapter 1: General Introduction

Aquaculture	2
Senegalese sole (<i>Solea senegalensis</i>)	2
Reproduction	5
Chemical communication, olfaction and physiology	9
Behavioural analyses	12
Dominance and stress coping styles	13
References	16

Section 2: Thesis overview

Thesis overview	24
-----------------	----

Section 3: Reproductive behaviour and spawning

Chapter 2: The effect of the presence of spawning wild Senegalese sole breeders on the courtship and reproductive success of cultured Senegalese sole breeders.

Abstract	30
Introduction	31
Material and Methods	34
Results	40
Discussion	57
References	62

Section 4: Olfaction

Chapter 3: Histomorphology and histochemical description of the olfactory rosettes from wild and cultured Senegalese sole (*Solea senegalensis*) Kaup 1858.

Abstract	69
Introduction	70
Material and Methods	71

Results	72
Discussion	76
References	79

Chapter 4: Transcriptomic profiles of the upper olfactory rosette in cultured and wild Senegalese sole (*Solea senegalensis*) males.

Abstract	83
Introduction	84
Material and Methods	85
Results	88
Discussion	95
References	99

Chapter 5: Olfactory sensitivity of the marine flatfish *Solea senegalensis* to conspecific body fluids.

Abstract	106
Introduction	107
Material and Methods	108
Results	111
Discussion	114
References	116

Section 5: Behavioural analyses

Chapter 6: Dominance in Senegalese sole (*Solea senegalensis*) linked to brain gene expression.

Abstract	123
Introduction	124
Material and Methods	126
Results	135
Discussion	141
References	145

Chapter 7: Linking stress coping styles with brain gene expression in Senegalese sole (*Solea senegalensis*).

Abstract	151
Introduction	152
Material and Methods	154
Results	162
Discussion	166
References	171

Section 6: Final discussion

Chapter 8 Final Discussion

Final Discussion	180
1. <i>Different processes of social learning in Senegalese sole</i>	180
2. <i>Chemical communication</i>	183
2.1. Olfaction associated with reproductive behaviour and dominance behaviour in Senegalese sole	186
3. <i>Behavioural analyses</i>	187
3.1. The existence of dominance behaviour in Senegalese sole	188
3.2. Stress coping styles associated with brain gene expression in Senegalese sole	189
Reproductive behaviour, chemical communication and dominance in Senegalese sole	191
References	192

Section 7: Conclusions

Chapter 9 Conclusions	200
