List of abbreviations and symbols.....	9
List of Figures.....	10
List of Tables.....	15
Acknowledgement.....	16
Summary of thesis.....	17
I.1. Transparent conducting oxides:.....	33
I.1.1. History:.....	33
I.1.2. Band theory:.....	33
I.1.3. Semiconductor:.....	35
I.1.4. Overview of TCOs:.....	39
I.1.4.a. Electrical and Optical Properties of TCOs:.....	39
I.1.4.b. Conditions required for achieving a TCO:.....	41
I.1.5. Towards New Transparent Conducting Oxides for Transparent Electronics:.....	42
I.1.5.a. n-type TCO materials:.....	42
I.1.5.b. p-type TCO materials:.....	47
I.1.5.c. p-n heterojunctions:.....	48
I.2. Delafossite: a p-type TCO:.....	49
I.2.1. History and Interest:.....	49
I.2.2. The delafossite structure:.....	50
I.2.3. Synthesis of delafossites:.....	52
I.2.3.a. Elaboration of powders:.....	52
I.2.3.b. Elaboration of thin films:.....	54
I.2.4. Properties of delafossites:.....	56
I.2.4.a. Electrical Properties of Delafossites:.....	56
I.2.4.b. Optical Properties of Delafossites:.....	57
I.3. Conclusion:.....	59
References:.....	59
II.1. Fabrication techniques.....	80
II.1.1. Powder synthesis.....	80
II.1.1.a. Solid-state synthesis of CuMO ₂ delafossites.....	81
II.1.1.b. Hydrothermal synthesis of CuMO ₂ delafossites.....	81
II.1.1.c. Sol-gel synthesis of CuMO ₂ delafossites:.....	82
II.1.2. Thin film synthesis.....	84

II.1.2.a. Spin coating method:.....	84
II.1.2.b. Spray pyrolysis method:.....	85
II.2. Characterization techniques:.....	86
II.2.1. Thin film X-ray diffraction (XRD).....	86
II.2.2. Scanning electron microscope (SEM).....	88
II.2.3. Energy dispersive x-ray spectroscopy (EDS).....	89
II.2.4. Atomic force microscopic method (AFM).....	90
II.2.5. Transmitting electron microscope (TEM).....	92
II.1.6. UV-visible spectroscopy:.....	93
II.1.7. Four-point electrical measurements:.....	94
II.3. Conclusion:.....	95
References:.....	96
III.1. Elaboration & deposition of delafossite CuMO_2 by spin coating.....	102
III.1.1. Utilized materials:.....	102
III.1.2. Experimental procedure:.....	102
III.2. Results, Analysis, and Discussion.....	103
III.2.1. Structural and morphology properties:.....	103
III.2.1.a. Structural measurement:.....	103
III.2.1.b. Morphology analysis:.....	104
III.2.1.c. TEM analysis:.....	106
III.2.1.d. AFM analysis:.....	107
III.2.2. Optical properties of CuMO_2 delafossite:.....	108
III.3. Conclusion.....	111
IV.1. Investigation of CuCoO_2 delafossite thin films by spray pyrolysis.....	115
IV.1.1. Utilized materials:.....	115
IV.1.2. Selection and treatment of substrates:.....	116
IV.1.2.a. Selection of substrates:.....	116
IV.1.2.b. Treatment of substrates:.....	116
IV.1.2.c. CuCoO_2 films manufacturing:.....	117
IV.2. Investigation of structural and morphology properties of CuCoO_2 delafossite films.....	118
IV.2.1. Structural properties of CuCoO_2 films:.....	118
IV.2.2. Morphology properties of CuCoO_2 films:.....	122
IV.3. Investigation of optical properties of CuCoO_2 grown by spray pyrolysis.....	125
IV.4. Conclusion.....	129

V.1. Investigation of CuCoO ₂ delafossite material.....	133
V.1.1. Manufacturing of CuCoO ₂ powders:.....	133
V.1.2. Manufacturing of CuCoO ₂ thin films:.....	134
V.1.3. The Four-Probe method:	134
V.1.4. Electrochemical Impedance Spectroscopy (EIS) measurements:.....	135
V.2. Analysis and Characterization of Properties for CuCoO ₂ Delafossite.....	136
V.2.1. Structural and morphological analysis:	136
V.2.2. Optical properties analysis:.....	141
V.3. In-Plane conductivity measurements	143
V.4. Dielectric spectra analysis:.....	145
V.5. Theoretical insight:.....	150
V.6. Conclusion:.....	152
VI.1. Investigation and analysis of Mg doped CuCoO ₂ thin films:.....	159
VI.1.1. Film preparation of CuCoO ₂ doped magnesium films:	160
VI.1.1.a. Materials:.....	160
VI.1.1.b. Thin films preparation:.....	160
VI.1.2. Structural & morphology analysis of CuCoO ₂ doped Mg thin films:	160
VI.1.3. Optical analysis of CuCoO ₂ doped Mg thin films:	166
VI.2. Investigation and analysis of Cd doped CuCoO ₂ thin films:.....	168
VI.2.1. Elaboration & synthesis of delafossite CuCoO ₂ doped Cadmium:	168
VI.2.1.a. Start products:	168
VI.2.1.b. Preparation of the precursor solution:	169
VI.2.1.c. Cleaning the substrates:.....	169
VI.2.1.d. Film deposition:	170
VI.2.2. Characterization & analysis of CuCo _{1-x} Cd _x O ₂ ($0 \leq x \leq 10\%$):.....	170
VI.2.2.a. Structural characterization by x-ray diffraction:.....	170
VI.2.2.b. Morphology characterization of Cd-doped CuCoO ₂ :.....	171
VI.2.2.c. Optical properties of Cd-doped CuCoO ₂ :	173
VI.3. Conclusion:	174
References:	175
