Acknowledgments	3
Fundings	5
Abstract.....	6
List of Publications.....	9
Acronyms.....	10
Table of Contents.....	12
1 Introduction.....	20
1.1. Introduction	20
1.2. Motivation	24
1.3. Objectives	25
1.4. Outline / Thesis Structure.....	26
1.5. Limitations of the work.....	28
2 Spectroscopic Techniques for Predictive Maintenance of ICE Vehicles	30
2.1. Introduction	30
2.2. Contextualizing the problem	32
2.2.1. Fuel dilution in engine oil	32
2.2.2. Classical methods to quantify fuel dilution.....	33
2.2.3. Spectroscopic techniques	35
2.3. Methodology for Spectroscopic Quantification of Fuel Dilution in Engine Oil.....	39
2.3.1. Methodological Approach.....	40
2.3.2. Samples	41
2.3.3. Sample Dilution.....	44
2.3.4. Instruments	48
2.4. Spectroscopic Quantification of Fuel Dilution in Engine Oil	49

2.4.1. Initial Spectral Characterization of Fuel and Engine Oil.....	49
2.4.2. Analysis of Fresh Engine Oil Samples.....	54
2.4.3. Comparative Evaluation of Spectroscopic Techniques.....	59
2.4.4. Analysis of Used Engine Oil Samples: <i>Near-Infrared Spectroscopy</i>	60
2.5. Conclusion	72
3 Fluids for Electric Vehicles.....	74
3.1. Introduction.....	74
3.2. Types of Electrification in Vehicles.....	74
3.2.1. Hybrid Electric Vehicles (HEVs)	75
3.2.2. Plug-in Hybrid Electric Vehicles (PHEVs).....	76
3.2.3. Battery Electric Vehicles (BEVs)	77
3.3. Fluids Required in Battery Electric Vehicles.....	78
3.3.1. E-Transmission Fluids.....	78
3.3.2. E-Greases	79
3.3.3. E-Thermal Fluids.....	80
3.4. Thermal Management in Electric Vehicles	81
3.5. Immersion cooling.....	83
3.5.1. Technical Challenges.....	84
3.5.2. Current Research and Applications.....	85
3.6. Candidate Dielectric Fluids for Immersion Cooling.....	86
3.6.1. Hydrocarbons.....	87
3.6.2. Esters.....	87
3.6.3. Fluorocarbons	88
3.7. Essential Thermophysical and Dielectric Properties of E-Fluids	89
3.7.1. Thermophysical Properties	89
3.7.2. Dielectric Properties	92
3.8. Evaluated Fluids.....	94
3.8.1. Base oils.....	94

4	Compatibility Assessment of E-Fluid Base Oils with Polyamide.....	96
4.1.	Introduction	96
4.2.	Background on Compatibility Studies.....	97
4.3.	Experimental approach for compatibility assessment	99
4.4.	Materials Investigated: Polyamide and Base Oils	100
4.4.1.	Polyamide 6 (PA6):.....	101
4.4.2.	Base oils.....	102
4.5.	Methodology for Compatibility Evaluation	102
4.5.1.	Quantification of Mass Variation	102
4.5.2.	Determination of Hardness Variation	103
4.5.3.	Measurement of tensile strength and elongation changes:	105
4.5.4.	Fourier Transform Infrared Spectroscopy (FTIR) Analysis of Polyamide	107
4.5.5.	Crystallinity Assessment	107
4.6.	Effects of Immersion on PA6 Properties.....	109
4.6.1.	Variation in Mass	109
4.6.2.	Hardness change	111
4.6.3.	Tensile Properties Evaluation	112
4.6.4.	Color change.....	116
4.6.5.	Chemical Characterization of Polyamide- ATR-FTIR.....	117
4.6.6.	X-ray diffraction - XRD	119
4.6.7.	Crystallinity.....	121
5	Compatibility Assessment of E-Fluid Base Oils with FKM	123
5.1.	Introduction.....	123
5.2.	Experimental approach	124
5.2.1.	Evaluated materials.....	125
5.3.	Methods for compatibility evaluation:	126

5.3.1. Variations in FKM Mass, Hardness, and Tensile Properties	127
5.3.2. Stereomicroscopy for Assessing FKM Surface Changes	127
5.3.3. Evaluation of the properties of base oils.....	128
5.4. Effects of Immersion on FKM Properties.....	131
5.4.1. Mass change	131
5.4.2. Hardness change	132
5.4.3. Tensile properties.....	134
5.4.4. Surface Morphology of FKM	136
5.5. Effects of Immersion on Base Oil Properties.....	137
5.5.1. Physical properties: viscosity and density	137
5.5.2. Thermal properties.....	140
5.5.3. Electrical properties	145
6 Conclusions and Future Work	151
6.1. Conclusions	151
6.1.1. Predictive Maintenance for ICE Vehicles	151
6.1.2. Characterization and Material Compatibility Assessment of Candidate Base Oils for E-Fluids in Electric Vehicle Applications.	152
6.1.3. Overall Contributions.....	155
6.2. Future Work.....	156
6.2.1. Enhancing Predictive Maintenance for ICE Vehicles	156
6.2.2. Optimizing E-Fluids for Electric Vehicles.....	156
References.....	158
