

TABLE OF CONTENTS

SUMMARY	1
RESUMEN	4
RESUM	7
ABBREVIATIONS	11
GENERAL INTRODUCTION.....	13
1. Plant viruses: from infectious agents to biotechnological tools	15
1.1 AMV: Structure and importance	17
1.2 Viral infection cycle	19
1.3 Movement proteins: key elements of viral movement	21
1.4 Family of movement proteins 30K	23
2. Virus evolution and adaptation to the host	26
2.1 Virus intrinsic characteristics that generate genetic variability	26
2.2 Virus interactions with the environment	28
3. Gene silencing	30
3.1 Gene silencing pathways.....	30
3.2 Gene silencing as a defense mechanism against viruses	32
3.3 Virus-induced gene silencing as a tool for gene functionality studies in plants	34
3.4 Other gene silencing applications	36
4. Viral-host protein interaction.....	37
4.1 Approaches to studying protein-protein interactions (PPIs)	37
4.2 Host factors interacting with viral movement proteins	41
5. Histones: key elements in DNA compaction	43
5.1 Histone 2B family	45
5.2 H2B are involved in pathogen responses.....	47

JUSTIFICATION AND OBJECTIVES 49

CHAPTER I. An evolved 5' untranslated region of alfalfa mosaic virus allows the RNA transport of movement-defective variants

..... 53

Abstract 57

Key word..... 57

Introduction..... 59

Results 62

Discussion..... 75

Materials and methods 79

Supplementary material..... 83

CHAPTER II. Engineering VIGS vectors by modifying movement proteins of the 30K family 85

Abstract 89

Key word..... 89

Introduction..... 91

Results 94

Discussion..... 104

Materials and methods 108

Supplementary material..... 112

CHAPTER III. Identification of host factors interacting with movement proteins of the 30K family in *Nicotiana tabacum* .115

Abstract 119

Key word..... 119

Introduction..... 121

Results 124

Discussion.....	135
Materials and methods	138
Supplementary material.....	141
CHAPTER IV. Viral movement proteins interact with histone 2B to promote viral infection	143
Abstract	147
Key word.....	147
Introduction.....	149
Results	151
Discussion.....	167
Materials and methods	173
Supplementary material.....	179
GENERAL DISCUSSION	181
CONCLUSIONS	193
REFERENCES	197
ANNEXE.....	215
