

Black Wool Serge Curtains

The industry standard for perimeter treatment, known for providing excellent sound absorption. We can manufacture curtains with a variety of headings and to various degrees of fullness to suit the application. We can also supply fabric in standard 1500mm width, either by the linear metre or in complete rolls.

Frequency (Hz)	Weight
Premier Wool Serge	565g/m ²
Heavy Wool Serge	625g/m ²
Kilo Wool Serge	800g/m ²

All of our Black Wool Serge Curtains meet the requirements of BS5867: Part 2: B which is the British Standard for flame retardant fabrics used for the manufacture of curtains or drapes. All are woven from fibres with a high flame retardancy to create an IFR (Inherently Flame Retardant) Fabric.

Sound Absorption Coefficients, tested in accordance with BS EN ISO 354: 2003 :

Frequency (Hz)	125	250	500	1k	2k	4k
Premier Wool Serge	0.05	0.45	0.90	0.95	0.90	0.85
Heavy Wool Serge	0.30	0.85	0.85	0.95	0.95	0.95
Kilo Wool Serge	0.40	0.90	0.85	0.95	0.95	1.05

Sound Reduction Index (SRI) :

Frequency (Hz)	63	125	250	500	1k	2k	4k	8k
Premier Wool Serge	1.0	1.7	2.1	3.7	5.0	5.0	5.7	5.7
Heavy Wool Serge	2.7	2.5	2.3	3.7	4.3	4.6	5.0	5.0
Kilo Wool Serge	3.6	2.8	3.7	6.2	7.4	8.2	8.1	8.7

Curtain Tracks

Silent Gliss

Recognised as a leading worldwide supplier of commercial or contact duty curtain tracks, Silent Gliss are known and respected for their high quality products. We generally offer tracking solutions using their systems on smaller curtain arrangements, where a domestic style of track is coupled with curtains headed with conventional Rufflette tape and hooks.

Hall Stage

One of the foremost suppliers to the theatrical, film and television sectors since 1898, Hall Stage has an enviable reputation. Their T60 track is the industry standard for medium to heavyweight curtain systems and can be designed to incorporate many features, with hand drawn, corded or motorised alternatives. They can also supply tracks suitable for heavy-duty applications and lighter weight systems.

Triple E

Known for their innovative product design, Triple E has a range of tracks that are suited to medium through to heavy-duty applications. Their 2Way track provides an excellent alternative to heavy-duty domestic tracks for those applications demanding excellent reliability and a compact system.
