

TABLE OF CONTENTS

Acknowledgements Agradecimientos	I
ABSTRACTS	III
Resumen	V
Resum.....	VII
Abstract	IX
TABLE OF CONTENTS.....	1
INTRODUCTION.....	3
1. Gene silencing in plants mediated by small RNAs	5
2. Classes, biogenesis and functions of plant small RNAs	5
3. Small RNA movement in plants	11
4. Classic RNA interference strategies for targeted gene silencing.....	12
5. Artificial small RNA-based gene silencing tools	15
6. Analysis of the silencing activity of artificial small RNAs	21
7. Strategies for the application of artificial small RNAs to plants.....	21
OBJECTIVES	25
CHAPTER 1	29
Systemic Silencing of an Endogenous Plant Gene by Two Classes of Mobile 21-Nucleotide Artificial Small RNAs	
CHAPTER 2	63
Transgene-Free, Virus-Based Gene Silencing in Plants by Artificial MicroRNAs Derived from Minimal Precursors	

CHAPTER 3.....	113
----------------	-----

**Syn-tasiR-VIGS: Virus-Based Gene Silencing in Plants
by Synthetic Trans-acting Small Interfering RNAs
Derived from Minimal Precursors**

DISCUSSION	155
------------------	-----

1. Features determining the induction of systemic silencing by mobile art-sRNAs..... 157
2. Applications of mobile art-sRNAs and alternatives to current limitations
..... 160
3. Development of minimal art-sRNA precursors 161
4. Biotechnological advantages of minimal art-sRNA precursors 164
5. Expression of minimal art-sRNA precursors from an RNA-based viral vector
..... 165
6. Transgene-free application of amiR-VIGS and syn-tasiR-VIGS: methodology,
uses and limitations 167

CONCLUSIONS	169
