

# Contents

Index of Tables .....	xxxi
Index of Figures .....	xxxiii
<b>General Introduction</b> .....	1
<b>Objectives of the thesis</b> .....	7
<b>Literature review</b> .....	11
<b>1.1 Components of the production of fertile doses</b> .....	13
1.1.1 Male libido .....	13
1.1.2 Characteristics of the ejaculate .....	14
1.1.3 Sperm quality .....	17
1.1.4 Tests analyzing possible molecular indicators of fertility .....	24
1.1.5 Predicting fertilizing potential of ejaculates through seminal traits .....	24
1.1.6 Male reproductive performance .....	26
<b>1.2 Factors of variation of the production of fertile doses</b> .....	29
1.2.1 Environmental factors .....	29
1.2.2 Genetic factors .....	36
1.2.3 Genotype x AI conditions interaction for male effect on reproductive performance ...	45
<b>1.3 The relationship between growth rate and the traits involved in the production of fertile doses</b> .....	51
<b>1.4 Methods and models for the analyses of seminal traits and fertility</b> .....	53
1.4.1 Genetic analysis of discrete traits .....	53
1.4.2 Models for the analysis of longitudinal data .....	57
1.4.3 Models for the joint analysis of seminal and reproductive performance traits .....	59
<b>1.5 Literature cited</b> .....	59
<b>Chapter one Genetic basis of semen traits and their relationship with growthrate in rabbits</b> .....	75
<b>Chapter two Different ways to model biological relationships between fertility and pH of the semen in rabbits</b> .....	99
<b>Chapter three Product versus additive model for studying artificial insemination results in several livestock species: Rabbits</b> .....	121
<b>Chapter four Interaction of genotype × artificial insemination conditions for male effect on fertility and prolificacy</b> .....	135
<b>Chapter five Using the product threshold model for estimating separately the effect of temperature on male and on female fertility</b> .....	159

<b>General discussion</b> .....	187
<b>Final conclusions</b> .....	197
<b>Conclusions finals</b> .....	201
<b>Conclusiones finales</b> .....	203
<b>Implications</b> .....	205
<b>Appendix</b> .....	207
