

Technical cross-section drawing of a stepped concrete retaining wall (pedraplén) with a cantilever beam (RECRECIDO DE VIGA CANTIL DE HORMIGÓN ARMADO) at the top. The drawing shows the wall's profile, the stepped concrete blocks, and the surrounding soil (RELLENO GENERAL) and ground (Terreno natural). Dimensions are provided in meters: total height 3.00, top slab width 1.60, and various step heights and widths. A variable dimension is indicated for the top slab height (+2.60 (VARIABLE)). The drawing also shows the ground level (NMMA 0.00) and the natural ground (Terreno natural).
