

## Content

1.	Introduction .....	1
1.1.	Motivation and contribution.....	1
1.2.	Research objective .....	4
1.3.	Outline of thesis .....	5
1.4.	Declaration of contribution.....	6
2.	Research design .....	8
2.1.	Derivation of research approach .....	8
2.2.	Generating of measuring indicators.....	10
2.3.	Expert interviews - approach .....	13
2.3.1.	Selection of interviewees.....	14
2.3.2.	Interview preparation, framework and analysis.....	16
2.4.	Testing .....	18
3.	Definitions.....	19
4.	Overview over existing approaches.....	29
4.1.	Four Levels of Analysis framework .....	29
4.2.	Quantitative analysis of approaches.....	32
4.3.	Descriptive review – country level.....	37
4.4.	Descriptive review – company or business unit level .....	41
4.5.	Descriptive review – organisational / project team level .....	45
4.6.	Descriptive review – individual level.....	47
4.7.	Summary of quantitative analysis and descriptive review .....	64
4.8.	Assessing approaches to measure work teams' innovation performance.....	64
4.9.	Limitations and conclusion of structured literature review .....	66
5.	Instrument development.....	68

5.1.	Generation of measuring items .....	68
5.2.	Purification of measuring items .....	75
5.2.1.	Purification by applying quality criteria for measuring instruments .....	75
5.2.2.	Purification by expert interviews .....	78
5.2.3.	Implications for development of instrument.....	85
5.3.	Approach 1: Counting innovations.....	87
5.4.	Approach 2: Valuing innovations .....	93
5.5.	Concept of utilization .....	99
6.	Hypotheses and experimental design .....	101
6.1.	Experimental goal and hypotheses .....	102
6.2.	Research design of the quasi-experiment .....	105
6.2.1.	General design.....	106
6.2.2.	Issues of team selection.....	109
6.2.3.	Issues of selecting measures.....	115
6.2.4.	Issues of standardising the setting.....	119
6.2.5.	Description of the template to measure innovation performance .....	121
6.2.6.	Issues of covert research.....	122
6.2.7.	Issues of further influences on team innovation .....	123
6.2.8.	Summary of quasi-experimental design and confounding factor analysis.....	129
6.3.	Research design of the feedback interviews – process and template.....	130
7.	Results of the quasi-experiment.....	132
7.1.	General observations .....	132
7.2.	Quality and applicability of the tools .....	134
7.2.1.	Quality of the Counting tool.....	135
7.2.2.	Quality of the Valuing tool .....	136
7.2.3.	Additional quality criteria.....	139

7.2.4. Ease of handling – team leaders assessment.....	140
7.2.5. Ease of handling – degree of template filled .....	141
7.3. Impact of measures to increase innovation performance.....	142
7.3.1. Analysis of the effect of the measures in general.....	145
7.3.2. Analysis of the effect of each single measure.....	154
7.4. Hypotheses evaluation and summary.....	160
7.4.1. Main findings, hypothesis evaluation and contributions.....	160
7.4.2. Managerial implications for the application of the measuring tools .....	161
7.4.3. Managerial implications for implementing measures to foster innovation performance.	165
7.4.4. Overarching theoretical contributions to the innovation literature .....	167
7.5. Limitations and directions for future research .....	170
8. Conclusion.....	172
8.1. Overview over quality of tools.....	173
8.2. Overview over measures' impact.....	174
8.3. Further research topics .....	175
Appendix	176
Appendix A) Interviewees.....	176
Appendix B) Interview guideline .....	176
Appendix C) Overview over indicators .....	182
Appendix D) Case study: Assessing innovation performance .....	186
Appendix E) Employee sample task description .....	190
Appendix F) Description of measures .....	191
Appendix G) Communication approach .....	192
Appendix H) Template for measuring.....	194
Appendix I) Lessons learned interviews – template .....	201
Reference List.....	204

## List of tables

Table 1: Inclusion and exclusion criteria.....	12
Table 2: Thematic analysis matrix.....	18
Table 3: Stages of the innovation process (Kurz, 2013, p. 22).....	21
Table 4: Definition of terms .....	22
Table 5: Analysis of terms describing innovation .....	27
Table 6: Characteristics of approach description .....	34
Table 7: Measuring technique per level of analysis .....	36
Table 8: Measuring technique per type of description .....	37
Table 9: Overview over discussed approaches .....	63
Table 10: Overview over process and output indicators proposed by existing approaches .....	74
Table 11: Rating of exemplary indicators .....	80
Table 12: Structured results of expert interviews .....	84
Table 13: Indicators of the Counting tool .....	92
Table 14: Guidelines for impact assessment .....	96
Table 15: Guidelines for feasibility assessment.....	98
Table 16: Guidelines for process quality.....	99
Table 17: Characteristics of operative working teams .....	112
Table 18: Sum of squares analysis - gender.....	112
Table 19: Test of Homogeneity of Variances.....	113
Table 20: ANOVA.....	114
Table 21: Assessment of potential interventions .....	117

Table 22: Measures for intervention in phase 2.....	118
Table 23: Team innovation input variables (source: Hüsleger et al., 2009, p.1138).....	125
Table 24: Team innovation process variables (source: Hüsleger et al., 2009, p.1138).....	128
Table 25: Correlation matrix (Pearson): Counting tool vs. Valuing tool.....	136
Table 26: Correlation matrix (Pearson) Valuing tool vs. impression team leader .....	137
Table 27. Implemented measures .....	143
Table 28: Results according to perspective of evaluation – overview .....	144
Table 29: Analysis of variances (innovationscore).....	150
Table 30: Analysis of variance (Problems identified).....	151
Table 31: Analysis of variance (ideas generated) .....	151
Table 32: Analysis of variance (positive feedback).....	152
Table 33: Influence of organisational unit on innovation performance.....	152
Table 34: Sum of Squares analysis (innovationscore) .....	153
Table 35: p value for measures per innovation stage .....	159
Table 36: Counting tool - guiding rules.....	162
Table 37: Valuing tool - guiding rules .....	164
Table 38: Selection of measures - guiding rules .....	167
Table 39: Overview over quality of tools.....	174
Table 40: Overview over indicators on company level.....	185
Table 41: Description of measures .....	191
Table 42: Communication approach.....	193

## List of figures

Figure 1: Levels of analysis of measuring innovation .....	31
Figure 2: Process of generating pool of relevant items.....	69
Figure 3: Relation between phases of value creation and innovation stages .....	71
Figure 4: Process of improving innovation capacity .....	104
Figure 5: Overview of mean age and tenure per team .....	114
Figure 6: Innovations created and their level of maturity achieved .....	133
Figure 7: Tool-review: team manager using the tool .....	140
Figure 8: Degree of completing the template .....	142
Figure 9: Results of the Counting tool .....	147
Figure 10: Results of the Valuing tool.....	147
Figure 11: Team leaders' assessment on team's innovation performance per phase.....	148
Figure 12: Comparison of the innovation's score means per phase .....	150
Figure 13: Measured changes of innovation performance depending on measure.....	155
Figure 14: Team leaders' assessment of change of measured innovation performance .....	156
Figure 15: Pin board – ideas per phase.....	157
Figure 16: Time for ideas – ideas per phase .....	157
Figure 17: Assessment of reasons for failed realization per phase during experiment.....	159
Figure 18: Availability of approaches per level of analysis – overview .....	168
Figure 19: Handling information for team leaders – example pin board .....	192
