

# Table of contents

<b>PART I. PROBLEM INVESTIGATION</b> .....	<b>1</b>
<b>Chapter 1. Motivation</b> .....	<b>3</b>
1.1 Enterprise information systems .....	4
1.2 Problem statement .....	8
1.3 Main contributions.....	15
1.4 Research methodology .....	16
1.5 Outline of the thesis .....	19
1.6 Philosophical stance.....	21
<b>Chapter 2. Related work</b> .....	<b>25</b>
2.1 Motivation.....	25
2.2 Propaedeutic.....	26
2.3 Model-driven requirements engineering.....	38
2.3.1 Descriptive analysis of results.....	38
2.3.2 Perceived threats to the validity of the results.....	42
2.3.3 Conclusions .....	44
2.4 State of the OO-Method at the beginning of this thesis .....	44
2.1 State of Communication Analysis at the beginning of this thesis.....	54
2.2 Summary .....	55
<b>Chapter 3. Theoretical framework</b> .....	<b>57</b>
3.1 Motivation.....	57
3.2 A note on ontological approaches.....	57
3.3 A conceptual framework for information systems: FRISCO 1.1 .....	59
3.3.1 Fundamental layer.....	61
3.3.2 The layer of actors, actions, and actands .....	63
3.3.3 The layer of cognitive and semiotic concepts.....	64
3.3.4 The layer of system concepts.....	69
3.3.5 The layer of organisational and information system concepts .....	71
3.4 A conceptual framework for model modularity .....	87
3.5 A conceptual framework for model-driven system development.....	98
3.6 Summary .....	106
<b>PART II. SOLUTION DESIGN</b> .....	<b>109</b>
<b>Chapter 4. Detailed specification of Communication Analysis</b> .....	<b>111</b>
4.1 Motivation.....	111
4.2 Requirements structure and concept definitions .....	112
4.2.1 L1. System/Subsystems Level.....	116
4.2.2 L2. Process Level.....	122
4.2.3 L3. Communicative Interaction Level.....	134

4.2.4 L4. Usage Environment Level .....	142
4.2.5 L5. Operational Environment Level .....	151
4.2.6 A comparison with Zachman enterprise architecture framework .....	151
4.3 Modelling techniques.....	153
4.3.1 Communicative Event Diagram.....	154
4.3.2 Message Structures .....	177
4.3.3 Event Specification Templates.....	184
4.4 Elicitation and analysis techniques .....	190
4.4.1 Starting business process engineering.....	193
4.4.2 Generative analysis.....	197
4.4.3 Revision of communicative behaviour.....	213
4.5 Communication Analysis platform-independent metamodel .....	223
4.6 Related works .....	228
4.7 Summary .....	233
<b>Chapter 5. Integration of Communication Analysis and the OO-Method.....</b>	<b>235</b>
5.1 Motivation.....	235
5.2 Approaching the integration the MDA way.....	236
5.3 Brief reminder of the OO-Method.....	237
5.4 Overview of the derivation strategy .....	242
5.4.1 Outline of the derivation of the Object Model .....	242
5.4.2 Outline of the derivation of the Dynamic Model.....	247
5.5 Derivation guidelines.....	251
5.5.1 Derivation of the Object Model.....	253
5.5.2 Derivation of the Functional Model .....	300
5.5.3 Derivation of the Dynamic Model .....	302
5.5.4 Traceability relationships.....	321
5.6 Summary .....	321
<b>PART III. SOLUTION VALIDATION.....</b>	<b>325</b>
<b>Chapter 6. Validation of Communication Analysis .....</b>	<b>327</b>
6.1 Motivation.....	327
6.2 Theoretical validation .....	328
6.2.1 Related works.....	329
6.2.2 Ontological evaluation of Communication Analysis .....	330
6.2.3 Discussion .....	340
6.3 Lab demos (often wrongly referred to as case studies).....	343
6.3.1 Projects office.....	344
6.3.2 Photography Agency Inc. ....	346
6.3.3 Master management system of TUO.....	350
6.3.4 SuperStationery Co. ....	351
6.4 An empirical framework for RE validation .....	351
6.4.1 The Method Evaluation Model (MEM).....	353
6.4.2 Conceptual model quality frameworks.....	355

6.4.3 Adopting and extending MEM for evaluating requirements engineering techniques .....	356
6.5 Controlled experiment: comparison of requirements specification methods	362
6.5.1 Previous empirical evaluations .....	362
6.5.2 Overview of the compared methods .....	363
6.5.3 Experimental planning .....	366
6.5.4 Results analysis and interpretation .....	374
6.5.5 Validity evaluation .....	379
6.5.6 Discussion .....	381
6.6 Summary .....	383
<b>Chapter 7. Validation of the conceptual model derivation technique.....</b>	<b>385</b>
7.1 Motivation .....	385
7.2 Theoretical validation .....	386
7.2.1 Ontological evaluation of the OO-Method .....	387
7.2.2 Evaluation of the integration of Communication Analysis and the OO-Method .....	390
7.3 Lab demos .....	393
7.3.1 Photography Agency Inc. ....	394
7.3.2 Projects office.....	396
7.3.3 Master management system of TUO.....	399
7.3.4 SuperStationery Co.....	400
7.3.5 Concluding remarks .....	406
7.4 Controlled experiment: comparison of two information systems analysis method variants .....	407
7.4.1 Experimental planning.....	408
7.4.2 Results analysis and interpretation .....	423
7.4.3 Validity evaluation .....	439
7.4.4 Discussion .....	445
7.5 Controlled experiment: comparison of conceptual model derivation techniques .....	446
7.5.1 Experimental planning.....	446
7.5.2 Results analysis and interpretation .....	460
7.5.3 Validity evaluation .....	469
7.5.4 Discussion .....	471
7.6 Summary .....	475
<b>PART IV. SOLUTION IMPLEMENTATION .....</b>	<b>477</b>
<b>Chapter 8. Technological support .....</b>	<b>479</b>
8.1 Motivation .....	479
8.2 Support for Communication Analysis.....	481
8.2.1 Adaptation of an office suite .....	481
8.2.2 Implementation of a modelling tool.....	483

8.2.3 Discussion .....	495
8.3 Support for model transformation .....	496
8.3.1 Implementation of an ATL transformation .....	496
8.3.2 Discussion .....	502
8.4 Summary .....	504
<b>PART V. CONCLUSION .....</b>	<b>505</b>
<b>Chapter 9. Final discussion.....</b>	<b>507</b>
9.1 Contributions and some lessons learned.....	507
9.2 Thesis impact .....	516
9.2.1 Publications.....	517
9.2.2 Academic and industrial projects .....	521
9.2.3 Collaborations .....	522
<b>Chapter 10. Outlook.....</b>	<b>523</b>
<b>REFERENCES .....</b>	<b>527</b>
<b>INDEX OF CONCEPT DEFINITIONS.....</b>	<b>553</b>
