

General Content

Chapter I. Introduction	1
I.1. Use of Antibiotics in Dairy Livestock	3
I.1.1. General Considerations.....	3
I.1.2. Consequences of the Presence of Antibiotic Residues in Milk.....	5
I.1.3. Legislative Aspects and Quality Control of Antibiotics	10
I.2. Cheese-making and Whey	13
I.2.1. Cheese and Whey Production.....	13
I.2.2. Characteristics and Use of Whey	17
I.2.3. Transfer of Antibiotics from Milk to Cheese	20
I.3. Methods for the Detection of Antibiotics in Milk and Dairy Products.....	24
I.3.1. General Aspects.....	24
I.3.2. Characteristics of Methods for the Detection of Antibiotics	26
I.3.3. Criteria for Validation of Screening Methods for Detection of Antibiotics	32
Chapter II. Objectives	37
Chapter III. Distribution of Antibiotics from Raw Goat's Milk to Cheese and Whey.....	41
III.1. Validation of a Multiresidue Method by UHPLC-HRMS for Antibiotics Detection in Milk, Fresh Cheese, and Whey.....	43
III.1.1. Introduction	43
III.1.2. Material and Methods.....	44
III.1.3. Results and Discussion	53
III.1.4. Conclusions	69
III.2. Transfer of Antibiotics from Goat's Milk to Rennet Curd and Whey Fractions during the Cheese-making Process.....	71
III.2.1. Introduction	71
III.2.2. Material and Methods.....	72
III.2.3. Results and Discussion	76
III.2.4. Conclusions	83
Chapter IV. Assessment of Screening Tests for Antibiotics Detection in Whey	85
IV.1. Evaluation of the Commercial Test to Screen Antibiotics in Whey.....	87
IV.1.1. Introduction.....	87
IV.1.2. Material and Methods	88
IV.1.3. Results and Discussion.....	94
IV.1.4. Conclusions	101

IV.2. Performance of Microbial Bioassays to Detect Antibiotics in Whey	103
IV.2.1. Introduction	103
IV.2.2. Material and Methods	104
IV.2.3. Results and Discussion	108
IV.2.4. Conclusions.....	114
IV.3. Evaluation of Screening Test for Antibiotic Residues (STAR) in Whey	115
IV.3.1. Introduction	115
IV.3.2. Material and Methods	116
IV.3.3. Results and Discussion	120
IV.3.4. Conclusions.....	129
Chapter V. General Discussion	131
Chapter VI. Conclusions.....	142
Chapter VII. References	146
Annex.....	164
