

Table of content

Preface.....	1
I Weeds.....	2
1 Definition and characteristics.....	2
2 Status quo of weed problems in agriculture.....	3
3 Weed management and different control practices in agricultural crops.....	4
4 Herbicide use and its impacts.....	6
4.1 Weed resistance.....	6
4.2 Human health and environmental impacts.....	8
4.3 Soil microbial community impacts.....	8
5 European Union (EU) legislations on plant protection products.....	9
6 Allelopathy and potential natural herbicides.....	9
7 Essential oils (EOs).....	11
7.1 EOs as potential herbicides.....	11
II Soil.....	13
1 Definition.....	13
2 Soil quality.....	13
3 Microbial Biomass.....	14
4 Microbial Activity.....	15
5 Carbon Mineralization (Soil Respiration).....	16
6 Microbial Community structure.....	16
References.....	18
Thesis structure and objectives.....	29
Chapter 1: Phytotoxic potential activity of seven essential oils extracted from Mediterranean species on seed weed germination and seedlings growth.....	32
1 Introduction.....	33
2 Materials and methods.....	35
2.1 Weeds.....	35
2.2 Essential oils.....	35
2.3 Phytotoxic assay.....	36
2.4 Gas Chromatography (GC).....	36
2.5 Gas Chromatography-Mass Spectrometry (GC-MS).....	36
2.6 Statistical analyses.....	37

3	Results	37
3.1	Chemical composition of the tested EOs	37
3.2	Germination trials	41
3.2.1	<i>A. retroflexus</i>	41
3.2.2	<i>P. oleracea</i>	42
3.2.3	<i>A. fatua</i>	42
3.2.4	<i>E. crus-galli</i>	42
3.3	Seedling growth	45
3.3.1	<i>A. retroflexus</i>	45
3.3.2	<i>P. oleracea</i>	45
3.3.3	<i>A. fatua</i>	45
3.3.4	<i>E. crus-galli</i>	45
4	Discussion	53
5	Conclusions	58
	References	60
Chapter 2: Soil bioindicators and herbicidal activity as affected by EOs extracted from three different Eucalyptus species applied in pre and post emergence.....		70
1	Introduction	71
2	Materials and methods	73
2.1	Plant material and oil extraction	73
2.2	Chemical analysis of essential oils Gas chromatography–mass spectrometry (GC/MS)	73
2.3	Experimental set up.....	74
2.3.1	Pre-Emergence herbicidal tests	74
2.3.2	Post-Emergence herbicidal test	75
2.3.3	Soil analyses	75
2.3.4	Statistical analysis.....	77
3	Results	77
3.1	Chemical composition of EOs	77
3.2	Effects of pre-emergence treatment on plants	79
3.3	Effects of post-emergence treatments in plants	80
3.4	Effects of EOs on soil biochemical properties and main microbial groups.....	81
4	Discussion	84
4.1	Percentage Yield and chemical composition of EOs.....	84
4.2	Herbicidal activity.....	85

4.2.1	Pre-emergence treatments.....	85
4.2.2	Post emergence treatment.....	86
4.2.3	Effects of EOs on soil biochemical properties and main microbial groups.....	88
5	Conclusions.....	88
	References.....	89
Chapter 3: Potential effects of essential oils extracted from Mediterranean aromatic plants on target weeds and soil microorganisms.....		
1	Introduction.....	100
2	Materials and Methods.....	102
2.1	Essential oils.....	102
2.2	Herbicidal activity of EOs against target weeds.....	103
2.3	Effects of EOs on soil microorganisms.....	105
2.4	Statistical analysis.....	107
3	Results.....	108
3.1	Essential oils composition.....	108
3.2	Effect of EOs on target plants.....	110
3.2.1	Effects of EOs on <i>A. retroflexus</i>	110
3.2.2	Effects of EOs on <i>P. oleracea</i>	110
3.2.3	Effects of EOs on <i>A. fatua</i>	111
3.2.4	Effects of EOs on <i>E. crus-galli</i>	112
3.2.5	Overall efficacy of EOs.....	112
3.3	Effects of EOs on soil biochemical properties and on the main microbial groups.....	113
3.3.1	Effects of <i>T. capitata</i> EO on soil biochemical properties and main microbial groups.....	114
3.3.2	Effects of <i>M. piperita</i> EO on soil biochemical properties and main microbial groups.....	118
3.3.3	Effects of <i>S. chamaecyparissus</i> EO on soil biochemical properties and main microbial groups.....	120
4	Discussion.....	122
4.1	Herbicidal activity of <i>T. capitata</i> , <i>M. piperita</i> and <i>S. chamaecyparissus</i> EOs.....	122
4.2	Changes in soil biochemical properties and in main microbial groups following the addition of EOs.....	125
4.2.1	<i>T. capitata</i> (THY) EO effects.....	125
4.2.2	<i>M. Piperita</i> (MNT) EO effects.....	126
4.2.3	<i>S. chamaecyparissus</i> (SNT) EO treatment.....	127

5	Conclusions	127
	References	129
Chapter 4: Effects of eucalyptus leaves and their extracts on soil microorganisms.....		139
1	Introduction	140
2	Materials and methods	143
2.1	Plant extracts	143
2.2	Experimental design.....	144
2.3	Leaf extract analyses.....	145
2.4	Soil analyses.....	146
2.5	Statistical analysis.....	147
3	Results	148
3.1	Chemical composition of EOs	148
3.2	Effects of eucalyptus leaves on soil biochemical properties	150
3.3	Effects of aqueous extracts on soil biochemical properties	152
3.4	Effects of hydrolates on soil biochemical properties.....	154
3.5	Effects of essential oils on soil biochemical properties	156
4	Discussion	159
4.1	Yield and chemical composition of EOs	159
4.2	Changes in soil biochemical properties and in main microbial groups following the addition of eucalyptus leaves	160
4.3	Changes in soil biochemical properties and in main microbial groups following the addition of eucalyptus aqueous extracts.....	161
4.4	Changes in soil biochemical properties and in main microbial groups following the addition of eucalyptus hydrolates	161
4.5	Changes in soil biochemical properties and in main microbial groups following the addition of eucalyptus essential oils.....	162
5	Conclusions	162
	References	163
