<b>Figure list</b> .....	<b>8</b>
<b>Resumen</b> .....	<b>11</b>
<b>Resum</b> .....	<b>13</b>
<b>Summary</b> .....	<b>15</b>
<b>Glossary</b> .....	<b>17</b>
<b>Introduction</b> .....	<b>21</b>
<b>1. Cell biology of the nervous system</b> .....	<b>21</b>
1.1. Nervous system structure.....	21
1.2. Nervous system cells and organization.....	22
1.3. Bundles of axons in the nervous system: peripheral nerves and central nervous system tracts.....	25
<b>2. Regeneration in the peripheral and central nervous system</b> ..	<b>27</b>
<b>3. Tissue engineering</b> .....	<b>30</b>
3.1. Therapies for tissue engineering .....	32
3.2. Hyaluronic acid .....	35
3.3. Polylactic acid.....	36
<b>4. Tissue engineering approaches in the nervous system</b> .....	<b>37</b>
4.1. Tissue engineering approaches in the peripheral nervous system: nerve guidance conduits .....	38
4.2. Tissue engineering approaches in the central nervous system: spinal cord injury, traumatic brain injury, and neurodegenerative disease .....	41
<b>Objectives</b> .....	<b>43</b>
<b>Chapter I</b> .....	<b>45</b>
<b>Engineered axon tracts within tubular biohybrid scaffolds</b> ...	<b>45</b>
1. Introduction.....	46

**Error! Use the Home tab to apply Título 1 to the text that you want to appear here.**

<b>2. Materials and methods</b> .....	<b>48</b>
2.1. Cell source .....	48
2.2. Preparation of hyaluronic acid conduits and hyaluronic acid conduit with poly-L-lactic acid fibres.....	48
2.3. Cell culture and cell seeding within conduits.....	49
2.4. Scanning (SEM) and Transmission electron microscopy (TEM) .....	50
2.5. Staining and immunocytochemistry .....	51
2.6. Statistical analyses .....	52
<b>3. Results</b> .....	<b>52</b>
3.1. Schwann cells seeded inside the lumen of hyaluronic acid conduits generate an internal ‘Schwann cell sheath’ .....	52
3.2. Pre-seeding of hyaluronic acid conduits with Schwann cells improves axonal extension after 21 days culture of dorsal root ganglion explants ..	54
3.3. Schwann cells coat poly-L-lactic acid fibres while still making the sheath-like structure at the hyaluronic acid lumen’s inner surface .....	56
3.4. Schwann cells together with poly-L-lactic acid fibres induce directed axon outgrowth from one end to the other of the conduit.....	57
3.5. Different cells from the dorsal root ganglion explant migrate and coexist with the pre-seeded Schwann cells within HAF+SC+DRG .....	60
3.6. Ultrastructural analysis of HAF+SC+DRG shows Schwann cells surrounding unmyelinated bundles of well-preserved axons .....	62
<b>4. Discussion</b> .....	<b>64</b>
<b>5. Conclusions</b> .....	<b>67</b>
<b>Chapter II</b> .....	<b>69</b>
<b><i>Multimodular bio-inspired organized structures guiding long-distance axonal regeneration</i></b> .....	<b>69</b>
<b>1. Introduction</b> .....	<b>70</b>
<b>2. Materials and methods</b> .....	<b>73</b>
2.1. Cells source .....	73
2.2. Preparation of hyaluronic acid unimodular and multimodular conduits with poly-L-lactic acid fibres.....	74
2.3. Cell culture and cell seeding within conduits.....	74
2.4. Scanning electron microscopy.....	75
2.5. MTS assay .....	76
2.6. Immunocytochemistry.....	76
2.7. Development of ‘neural cord’ .....	77
2.8. Statistical analyses .....	77
<b>3. Results</b> .....	<b>77</b>
3.1. The composition of the multimodular conduit with short individual modules minimizes failures in the manufacturing process.....	77

3.2. The density of Schwann cells is lower and unevenly distributed in long-unimodular conduit .....	79
3.3. Schwann cells grow without discontinuity within the multimodular conduit .....	80
3.4. Axons extend through the multimodular conduit crossing the inter-module zones .....	82
3.5. 'Neural cord' extracted from the hyaluronic acid conduit can survive after 5 additional days in culture.....	83
3.6. The 'Schwann cell sheath' is incorporated into the 'neural cord' in the 5 additional days of culture.....	84
3.7. Axons extend through the 'neural cord' after a short-term co-culture with dorsal root ganglion explants .....	85
<b>4. Discussion .....</b>	<b>86</b>
<b>5. Conclusions .....</b>	<b>89</b>
<b><i>Discussion .....</i></b>	<b><i>91</i></b>
<b><i>Conclusions .....</i></b>	<b><i>99</i></b>
<b><i>Work in progress and future work .....</i></b>	<b><i>101</i></b>
<b><i>Contributions .....</i></b>	<b><i>105</i></b>
<b><i>References .....</i></b>	<b><i>109</i></b>
<b><i>Appendix .....</i></b>	<b><i>130</i></b>
