Resumen	ii
Abstract	iv
Sommario	vi
Resum	viii
Agradecimientos	x
Índice	xii
Índice de Figuras	xvi
Índice de Tablas	xvii
Estructura de la Tesis Doctoral	2
Structure of the Doctoral Thesis	4
Capítulo 1: Introducción	6
1. La repercusión cognitivo-emocional de la arquitectura	6
2. Aproximaciones a la dimensión cognitivo-emocional de la arquitectura	7
2.1. Aproximaciones tradicionales	7
2.2. Aproximaciones nuevas	8
Chapter 1: Introduction	14
1. The cognitive-emotional impact of architecture	14
2. Approaches to the cognitive-emotional dimension of architecture	15
2.1. Base approaches	15
2.2. New approaches	16
Capítulo 2: Objetivos	22
Chapter 2: Objectives	24
Capítulo 3: Artículo 1 / Chapter 3: Paper 1. “The cognitive-emotional design and study of architectural space: A scoping review of neuroarchitecture and its precursor approaches”	26
Abstract	27
1. Introduction	27
2. Materials and Methods	28
3. Results	32

3.1. Classification of references and their descriptive analysis	32
3.2. Holistic framework of the issue	35
4. Discussion	64
4.1. Limitations of the approaches to the study of cognitive-emotional dimension of architecture	64
4.2. Problems in addressing the cognitive-emotional dimension of architecture	65
4.3. Beyond the current state. The challenges facing neuroarchitecture and its constituent disciplines	66
4.4. Limitations of the work	68
5. Conclusions	68
Capítulo 4: Artículo 2 / Chapter 4: Paper 2. “Psychological and physiological human responses to simulated and real environments: A comparison between photographs, 360 panoramas, and virtual reality”	70
Abstract	71
1. Introduction	71
1.1. Background Research	72
2. Materials and Methods	75
2.1. Environment Set-Ups	76
2.2. Dependent Variables	78
2.3. Participants	80
2.4. Procedure	80
2.5. Data analysis	81
3. Results	82
4. Discussion	86
5. Conclusions	89
Capítulo 5: Artículo 3 / Chapter 5: Paper 3. “Digital space: Comparative evaluation of the latest architectural techniques”	90
Abstract	91
1. Introduction	91
2. Materials and Methods	93
2.1. Formats	93
2.2. Supports	94
2.3. Questionnaire	95
2.4. Sample	95
2.5. Development of the experience	95
2.6. Data processing	96

3. Results	97
4. Conclusions	99
Capítulo 6: Artículo 4 / Chapter 6: Paper 4. “User evaluation of neonatology ward design. An application of focus group and semantic differential”	100
Abstract	101
1. Introduction	101
2. Materials and Methods	105
2.1. Stage 1. Exploratory analysis of the aesthetic and functional needs of neonatology ward users	106
2.2. Stage 2. Identification of the relevant design parameters in the assessment of the neonatology ward	111
3. Results	114
3.1. Stage 1. Exploratory analysis of the aesthetic and functional needs of neonatology ward users	114
3.2. Stage 2. Identification of the relevant design parameters in the assessment of the neonatology ward	117
4. Discussion	121
5. Implications for Practice	124
Capítulo 7: Artículo 5 / Chapter 7: Paper 5. “Multisensory stress reduction: A neuro-architecture study of paediatric waiting rooms”	126
Abstract	127
1. Introduction	127
1.1. The effect of healthcare facility design on stress	128
1.2. Design variables	129
2. Method	130
3. Materials and Methods	132
3.1. Phase I	132
3.2. Phase II	133
4. Results	139
4.1. Phase I	139
4.2. Phase II	141
5. Discussion	146
6. Conclusions	148
Capítulo 8: Discusión	149
1. Uso actual y limitaciones de las simulaciones ambientales en arquitectura	150
2. Limitaciones de las aproximaciones a la dimensión cognitivo-emocional de la arquitectura	152

2.1. Limitaciones a nivel ontológico	152
2.2. Limitaciones a nivel epistemológico	153
2.3. Limitaciones a nivel metodológico	153
3. Más allá del estado del arte: los desafíos de la neuroarquitectura	154
Chapter 8: Discussion	155
1. Current use and limitations of environmental simulations in architecture	156
2. Limitations of approaches to the cognitive-emotional dimension of architecture	158
2.1. Limitations at the ontological level	158
2.2. Limitations at the epistemological level	159
2.3. Limitations at the methodological level	159
3. Beyond the state of the art: the challenges of neuroarchitecture	160
Capítulo 9: Conclusiones	162
Chapter 9: Conclusions	168
Capitolo 9: Conclusioni	174
Actividades de investigación / Research activities	180
Referencias / References	198
