Introduction	1
0 Preliminaries	5
0.1 Weight functions	7
0.2 Spaces of ultradifferentiable functions	12
0.3 Ultradifferential operators	16
0.4 Time-frequency analysis	24
1 Global pseudodifferential operators	29
1.1 Symbols and amplitudes	31
1.2 Continuity of the operator	35
2 Quantizations for pseudodifferential operators	59
2.1 Symbolic calculus	60
2.2 Properties of formal sums	76
2.3 Behaviour of the kernel of a pseudodifferential operator	80
2.4 The transposition and composition of operators	107
3 Parametrices	115
3.1 Global regularity	116
3.2 Example	123
3.3 Global hypoellipticity	127
4 The Weyl wave front set	135
4.1 The ω -wave front set	137
4.2 The Weyl wave front set	159
4.3 Regularity of Weyl quantizations	171
Index	177
