

Summary	v
Resumen	vii
Resum	ix
Table of contents	xi
1 General introduction	1
Starting point of the thesis	3
Consumer perception: A quick overview	3
The perceptual process	4
Multisensory food perception	7
Crossmodal interactions	8
Sensory incongruity	9
Crossmodal correspondences	10
The food product: Intrinsic and extrinsic properties	10
Underlying effects	11
2 Rationale and objectives	17
Rationale	19
Objectives	19
Thesis outline	20
3 Semiotics in food packaging	23
Semiotics and perception: Do labels convey the same messages to older and younger consumers?	23
4 Crossmodal associations between colour and flavour. Expectations and oral perception	45
Crossmodal correspondences in product packaging: Assessing colour-flavour correspondences for potato chips (crisps)	45
5 Crossmodal correspondences: Are they learned? Do they vary across cultures?	59
Exploring implicit and explicit crossmodal colour-flavour correspondences in product packaging	59
6 A matter of weight: Relations between weight, quality, and price	79
The weight of the bottle as a possible extrinsic cue with which to estimate the price (and quality) of the wine? Observed correlations	79
7 Crossmodal perceptual illusions	95
Is it the plate or is it the food? Assessing the influence of the colour (black or white) and shape of the plate on the perception of the food placed on it	95
8 Crossmodal correspondences between colour and flavour/ aroma	107
The influence of the colour of the cup on consumers' perception of a hot beverage	107
9 A matter of weight: Sensation transference from haptic input to oral perception	123
Does the weight of the dish influence our perception of food?	123
10 A matter of weight: Sensation transference from haptic input to expected satiety	135

The weight of the container influences expected satiety, perceived density, and subsequent expected fullness	135
11 Sensation transference of abstract attributes: Quality	149
Do the material properties of cutlery affect the perception of the food you eat? An exploratory study	149
12 Ventriloquism between tactile and oral perception of food	161
The influence of the feel of product packaging on the perception of the oral-somatosensory texture of food	161
13 General discussion	177
Perceptual matters	181
Methodologies used	181
14 Conclusions	183
15 Other related publications	187
