

# Index

Agradecimientos .....	iii
Resumen.....	iv
Resum.....	vi
Abstract .....	viii
List of abbreviations .....	x
List of Figures.....	xi
List of Tables.....	xiii
Chapter 1. Introduction .....	1
1.1. Motivations .....	2
1.2. Objectives.....	2
1.3. Structure of the thesis.....	3
Chapter 2. State of the Art .....	5
2.1. Introduction to Cardiac Electrophysiology and Atrial Fibrillation .....	5
2.1.1. Cardiac Electrophysiology.....	5
2.1.2. Atrial Fibrillation .....	9
2.1.3. Clinical Treatment.....	12
2.2. Atrial Fibrillation Characterization Studies: <i>In-silico</i> trials vs. Clinical trials ....	15
2.2.1. <i>In-Silico</i> trials.....	16
2.2.2. Observational Studies and Clinical trials.....	21
2.3. Artificial Intelligence and Atrial Fibrillation .....	22
2.3.1. Artificial Intelligence vs. Conventional Statistical Methods.....	23
2.3.2. AI Learning process: Supervised vs. Unsupervised vs. Reinforcement Learning .....	27
2.3.3. Calibration process: Training, validation and test sets .....	28
2.3.4. AI application in AF .....	29
Chapter 3. Study 1. <i>In silico</i> Trial and Artificial Intelligence.....	33
3.1. Introduction .....	34
3.2. Materials and Methods.....	35
3.2.1. Electrophysiological Variation: Description of the Population of Models.....	35
3.2.2. Chronic Atrial Fibrillation Electrophysiological Cellular Model.....	36
3.2.3. Anatomical Characterization: Monodomain Equation and Tissue Size ...	38
3.2.4. Mathematical modelling of the drug.....	38
3.2.5. Simulation protocols.....	39
3.3. Results .....	41
3.3.1. AF induction on the Population of Models .....	41
3.3.2. Antagonistic effects can be observed for the same drug among the population of models.....	42
3.3.3. Machine Learning Algorithms Help Understand and Predicts the Ionic Channels Effect .....	44
3.4. Discussion.....	47
3.4.1. Variability on AF simulations: Ionic and tissue size variation .....	48
3.4.2. Drug Effect on the Population of Models .....	48
3.4.3. Artificial Intelligence Algorithms for Arrhythmia Maintenance Prediction .....	49
3.4.4. Limitations .....	51
3.4.5. Clinical Implications .....	51
3.5. Conclusions .....	52

Supplementary Material .....	53
Artificial Intelligence Model.....	53
Chapter 4. Study 2: <i>In Silico</i> Technology and Clinical Data Exploitation .....	56
4.1. Introduction .....	57
4.2. Materials and Methods.....	57
4.2.1. 4.2.1. Patient Database.....	57
4.2.2. Atrial Electroanatomical Complexity Evaluation Protocol .....	58
4.2.3. Atrial Anatomy.....	58
4.2.4. Computational Models of the Atria .....	58
4.2.5. Clinical Evaluation .....	61
4.2.6. Statistical Analysis.....	62
4.3. Results.....	62
4.3.1. Cohort Description.....	62
4.3.2. Comparison of ACM with ECGi .....	63
4.3.3. AF Complexity and 1-year Ablation Outcome .....	64
4.3.4. Comparison with AF Type .....	67
4.3.5. Applicability to Clinical Environment .....	68
4.4. Discussion.....	69
4.4.1. Simulation Models .....	70
4.4.2. Clinical Implications .....	71
4.4.3. Study Limitations .....	72
4.5. Conclusions .....	73
Supplementary Material .....	74
Automata Models: Implementation and Electrophysiological Characteristics..	74
Automata Model: Alonso-Atienza Model Description.....	74
Chapter 5. Study 3: STRATIFY-AF. Artificial Intelligence for Treatment Selection ...	78
5.1. Introduction .....	79
5.2. Methods.....	79
5.2.1. Data and Study Population .....	79
5.2.2. BSPM recordings.....	80
5.2.3. Data processing and cleaning .....	80
5.2.4. Studied cohort .....	83
5.2.5. Data analysis.....	83
5.2.6. Statistical Methods .....	85
5.3. Results.....	85
5.3.1. Patient Cohort Clinical Description .....	85
5.3.2. Patient Cohort ECGi description .....	89
5.3.3. Neural Network performance.....	90
5.3.4. ECGi biomarker evaluation for prediction .....	91
5.3.5. Effect of clinical variables on global model.....	91
5.4. Discussion.....	96
5.4.1. Limitations .....	97
5.4.2. Conclusions.....	97
Supplementary Tables.....	98
Outpatient group baseline characteristics.....	98
Ablation group baseline characteristics.....	99
Pharmacological changes after ablation.....	101
Chapter 6. Conclusions and Discussion .....	103
6.1. Main Findings .....	103
6.2. Comparison with Previous Studies.....	105

6.3. Limitations.....	106
6.4. Conclusions .....	107
6.5. Guidelines for future works .....	109
Chapter 7. Contributions .....	111
7.1. Main contributions of this thesis .....	111
7.1.1. Journal papers .....	111
7.1.2. International conferences .....	111
7.1.3. National conferences .....	113
7.1.4. Awards.....	113
7.1.5. Courses Attended .....	113
7.1.6. Courses and presentations .....	113
7.2. Contributions related to this thesis.....	113
7.2.1. Journal papers .....	113
7.2.2. International conferences .....	114
7.2.3. National conferences.....	114
7.2.4. Conducted bachelor thesis .....	115
7.3. Participation in research projects .....	115
7.4. Author contribution .....	116
References.....	117
