

# Table of Contents

---

Nomenclature .....	30
I. Introduction .....	32
Biodegradable Active Materials Containing Phenolic Acids for Food Packaging Applications .....	34
Abstract .....	35
1. Introduction .....	35
2. Biodegradable polymers for food packaging applications .....	37
3. Active properties of phenolic acids .....	41
4. Functional and active properties of biodegradable films containing phenolic acids/ plant extracts .....	46
5. Factors affecting the antimicrobial efficiency of biodegradable active materials in contact with food products .....	54
6. Conclusions .....	59
7. References .....	60
II. Objectives .....	70
III. Chapters .....	76
Chapter distribution .....	78
Chapter 1: Physicochemical and antimicrobial properties of cassava starch films with ferulic or cinnamic acid .....	80
1. Introduction .....	84
2. Materials and methods .....	85
3. Results and discussion .....	89
4. Conclusions .....	98
5. References .....	99
Chapter 2: Effect of ferulic and cinnamic acids on the functional and antimicrobial properties in thermo-processed PLA films .....	102
1. Introduction .....	106
2. Materials and methods .....	108
3. Results and discussion .....	112
4. Conclusions .....	122
5. References .....	123

---

## Preface

---

Chapter 3: Antibacterial properties of cinnamic and ferulic acids incorporated to starch and PLA monolayer and multilayer films.....	128
1. Introduction .....	132
2. Materials and methods .....	133
3. Results and discussion .....	136
4. Conclusions .....	140
5. References .....	141
Chapter 4: Properties of PLA films with cinnamic acid: effect of the processing method. ....	144
1. Introduction .....	148
2. Materials and methods .....	150
3. Results and discussion .....	153
4. Conclusions .....	162
5. References .....	163
Chapter 5: Antilisterial action of PLA films with ferulic acid as affected by the method of incorporation.....	166
1. Introduction .....	170
2. Materials and methods .....	173
3. Results and discussion .....	176
4. Conclusions .....	186
5. References .....	187
Chapter 6: Multilayer antimicrobial films based on starch and PLA with superficially incorporated ferulic or cinnamic acids for active food packaging purposes. ....	190
1. Introduction .....	194
2. Materials and methods .....	196
3. Results and discussion .....	201
4. Conclusions .....	209
5. References .....	211
IV. General Discussion.....	216
General Discussion .....	218
V. Conclusions .....	226
