Departamento de Comunicaciones

# Coupling techniques between dielectric waveguides and planar photonic crystals

Pablo Sanchis Kilders

Director: Dr. Javier Martí Sendra

Tesis Doctoral presentada en la  
Universidad Politécnica de Valencia para  
la obtención del título de Doctor Ingeniero  
de Telecomunicación

Valencia, Febrero 2005

# Contents

<b>Abstract</b>	v
<b>Resumen</b>	vi
<b>Resum</b>	vii
<b>Preface</b>	viii
<b>1. Introduction</b>	
<b>1.1 Motivation</b> .....	1
<b>1.2 Objectives</b> .....	4
<b>1.3 Outline of this Work</b> .....	4
<b>2. Fundamentals of Photonic Crystals</b>	
<b>2.1 The Origin of Photonic Crystals</b> .....	7
<b>2.2 Light Propagation in Periodic Media</b> .....	9
2.2.1 Wave Equations in Mixed Media.....	9
2.2.2 Light Propagation in Homogeneous Media .....	11
2.2.3 Light Propagation in 1D Periodic Media .....	12
2.2.4 Light Propagation in 2D Periodic Media .....	14
2.2.5 Light Propagation in 3D Periodic Media .....	17
2.2.6 Defects in Photonic Crystals.....	18

<b>2.3 Planar Photonic Crystals</b> .....	20
2.3.1 Influence of Vertical Symmetry on Polarization.....	21
2.3.2 The Light Cone .....	22
2.3.3 Waveguides in Planar Photonic Crystals.....	23
2.3.4 Index Contrast between Claddings and Core .....	26
<b>2.4 Modeling Tools</b> .....	27
2.4.1 Finite-Difference Time-Domain.....	28
2.4.2 Plane Wave Method.....	29
2.4.3 Eigenmode Expansion.....	30
2.4.4 Multiple Scattering.....	31
<b>2.5 Applications of Photonics Crystals</b> .....	31
<b>2.6 Conclusion</b> .....	33
<b>3. Butt-Coupling in Photonic Crystals</b>	
<b>3.1 Coupling Losses in Photonic Crystals</b> .....	35
<b>3.2 Interface Between Two Dielectric Waveguides</b> .....	37
<b>3.3 Interface Between Dielectric and Photonic Crystal Waveguides</b> .....	39
3.3.1 First approach.....	39
3.3.2 Second approach.....	41
<b>3.4 Interface Between Photonic Crystal and Dielectric Waveguides</b> .....	43
<b>3.5 Butt-Coupling in Photonic Crystals</b> .....	46
3.5.1 Description of the analyzed structures.....	46
3.5.2 Coupling efficiency dependence on cut position.....	47
3.5.3 Coupling efficiency dependence on frequency.....	50
3.5.4 Reflection into photonic crystals.....	52
3.5.5 Differences between rod and hole structures.....	55
3.5.6 Relation to classical approximate formula.....	58
<b>3.6 Semi-analytic Treatment of Complex Structures</b> .....	60
<b>3.7 Conclusion</b> .....	66

<b>4. Coupling into Line Defect Photonic Crystal Waveguides</b>	
<b>4.1 Coupling Techniques in Photonic Crystals</b> .....	69
<b>4.2 Defects based Photonic Crystal Tapers</b> .....	71
4.2.1 Proposed coupling technique.....	72
4.2.2 Optimization of the defect parameters.....	74
4.2.3 Modification of the taper length.....	76
4.2.4 Transmission through photonic crystals of finite length.....	79
<b>4.3 Defects Design based on a Genetic Algorithm</b> .....	81
4.3.1 Coupling from broad dielectric waveguides.....	81
4.3.2 Genetic algorithms.....	85
4.3.3 Modification of the taper length.....	87
4.3.4 Modification of the taper geometry.....	90
4.3.5 Coupling dependence on the frequency of optimization.....	92
<b>4.4 Conclusion</b> .....	95
<b>5. Coupling into Coupled Cavity Waveguides</b>	
<b>5.1 Coupled Cavity Waveguides</b> .....	97
<b>5.2 Adiabatic Coupling</b> .....	99
5.2.1 Band diagram analysis.....	99
5.2.2 Transmission spectra analysis.....	102
<b>5.3 Pulse Propagation Analysis</b> .....	104
5.3.1 Theoretically model.....	105
5.3.2 Frequency domain analysis.....	108
5.3.3 Time domain analysis.....	113
5.3.4 Variation of the CCW length.....	119
<b>5.4 Conclusion</b> .....	122
<b>6. Fabrication and Measurements</b>	
<b>6.1 Fabrication and characterization of photonic crystals</b> .....	125

<b>6.2 Rod or hole structure?</b> .....	127
<b>6.3 Measurement set-up</b> .....	129
<b>6.4 Hole structure: Silicon-on-insulator</b> .....	
6.4.1 Fabrication process.....	131
6.4.2 Post-processing.....	131
6.4.3 Coupling into photonic crystal waveguides.....	133
6.4.4 Coupling into coupled-cavity waveguides.....	135
<b>6.5 Rod structure: Silicon rods embedded in silica</b> .....	146
6.5.1 Fabrication process.....	154
6.5.2 Coupling into photonic crystal waveguides.....	154
<b>6.6 Conclusion</b> .....	156
	159
<b>7. Conclusions and Future Work</b>	
<b>7.1 Conclusions</b> .....	161
<b>7.2 Future work</b> .....	163
<b>Appendix A Publications</b> .....	165
<b>Bibliography</b> .....	171
