<b>Contents</b>	<b>i</b>
<b>List of Figures</b>	<b>v</b>
<b>List of Tables</b>	<b>xii</b>
<b>1 Introduction</b>	<b>1</b>
1.1 Overview . . . . .	1
1.2 Aims and procedure . . . . .	4
1.3 Thesis framework . . . . .	6
References . . . . .	7
<b>2 Gasoline injection fundamentals and spray-wall interaction</b>	<b>9</b>
2.1 ICEs worldwide status . . . . .	9
2.2 ICE classification and description . . . . .	11
2.3 Fuel injection mechanism . . . . .	12
2.3.1 Gasoline injection systems . . . . .	12
2.4 Gasoline direct injection strategy . . . . .	16
2.4.1 An Overview of GDI . . . . .	16
2.4.2 Stratified charge combustion . . . . .	18
2.4.3 Novel combustion notions and GDI technology . . . . .	22
2.5 GDI fuel injectors description . . . . .	23
2.5.1 The advancement of gasoline injectors . . . . .	23
2.5.2 Multi-hole solenoid driven GDI injectors . . . . .	27
2.6 Spray-wall interaction phenomenon . . . . .	32
References . . . . .	37

<b>3 Experimental resources and tools</b>	<b>53</b>
3.1 Injection system description . . . . .	53
3.1.1 Continental and Spray G injectors . . . . .	53
3.1.2 High-pressure common-rail system . . . . .	55
3.2 GDI test rig vessel . . . . .	55
3.3 Transparent wall system . . . . .	57
3.3.1 Supporting system description . . . . .	58
3.4 Thermoregulated wall system . . . . .	59
3.4.1 Wall structure . . . . .	60
3.4.2 Heating oil circuit . . . . .	62
3.4.3 Temperature measuring system . . . . .	62
3.5 Infrared thermography . . . . .	66
References . . . . .	69
<b>4 Data processing strategies</b>	<b>71</b>
4.1 Introduction . . . . .	71
4.2 Optical techniques and setups . . . . .	71
4.2.1 Single-pass Schlieren technique . . . . .	72
4.2.2 Diffused back-illumination (DBI) . . . . .	73
4.2.3 Mie-scattering technique . . . . .	74
4.2.4 Quartz wall optical setup . . . . .	75
4.2.5 Thermoregulated wall optical setup . . . . .	76
4.3 Image processing strategies . . . . .	77
4.3.1 Image masking . . . . .	78
4.3.2 Image binarization and background subtraction. . . . .	78
4.3.3 Image filtering and other criteria combination . . . . .	79
4.3.4 Image contour analysis . . . . .	79
4.4 Wall heat flux and temperature calculation . . . . .	85
4.5 Infrared thermography data post-processing . . . . .	89
4.5.1 Temperature measurements . . . . .	89
4.5.2 Heat flux . . . . .	91
4.5.3 Area of impact . . . . .	95
4.5.4 Plume jet axis and spray cone angle evaluation. . . . .	96
References . . . . .	97
<b>5 Inert spray under free-jet and wall-impingement conditions against an ambient-temperature wall</b>	<b>103</b>
5.1 Introduction . . . . .	103
5.2 Test matrix and fuel properties . . . . .	104
5.3 Free-jet visualization . . . . .	104

---

5.3.1	Injection pressure variation . . . . .	106
5.3.2	Ambient back-pressure variation . . . . .	108
5.3.3	Fuel temperature variation . . . . .	109
5.3.4	Ambient temperature variation . . . . .	111
5.3.5	R-parameter variation . . . . .	112
5.3.6	Light extinction analysis . . . . .	113
5.4	Spray-wall interaction visualization . . . . .	117
5.4.1	Spray spreading over the wall . . . . .	117
5.4.2	Spray width over the wall . . . . .	124
5.4.3	Light extinction after SWI . . . . .	127
5.5	Frontal area of impact after the spray-wall interaction . . . . .	130
5.6	Summary and conclusions . . . . .	133
	References . . . . .	134
<b>6</b>	<b>Spray impingement against a heated and instrumented wall</b>	<b>137</b>
6.1	Introduction . . . . .	137
6.2	Spray-wall interaction visualization . . . . .	138
6.2.1	Spray spreading over the wall . . . . .	139
6.2.2	Spray width after the SWI . . . . .	141
6.2.3	Light extinction profiles . . . . .	143
6.2.4	Comparison of both wall campaigns. . . . .	144
6.3	SWI heat flux results . . . . .	147
6.4	Convective heat transfer coefficient estimation . . . . .	154
6.5	Summary and conclusions . . . . .	157
	References . . . . .	159
<b>7</b>	<b>Infrared thermography wall heat transfer characterization</b>	<b>161</b>
7.1	Introduction . . . . .	161
7.2	Spray impact area, convective heat transfer coefficient and heat flux . . . . .	162
7.3	Comparison between experimental campaigns . . . . .	166
7.4	Summary and conclusions . . . . .	168
	References . . . . .	169
<b>8</b>	<b>Conclusions and future works</b>	<b>171</b>
8.1	Summary . . . . .	171
8.2	Future works . . . . .	175
<b>Appendices</b>		<b>177</b>
<b>A</b>	<b>Continental injector hydraulic characterization.</b>	<b>179</b>

A.1	Injection rate (ROI) . . . . .	179
A.2	Spray angle measurements . . . . .	183
A.3	Momentum rate (ROM) . . . . .	184
	A.3.1 ROM measurement methodology and setup . . . . .	186
A.4	Rate of injection results . . . . .	190
	A.4.1 Hydraulic injector characterization . . . . .	190
A.5	Rate of Momentum results . . . . .	193
A.6	Hydraulic Analysis . . . . .	196
A.7	Summary and conclusions . . . . .	199
	References . . . . .	200
	<b>Global Bibliography</b>	<b>205</b>
