

ÍNDICE

Capítulo 1. Introducción.....	1
Capítulo 2. Critical intangible factors for SME multi-location strategy in China	9
2.1. Introduction	11
2.2. Theoretical framework	14
2.2.1. Strategic reasons	14
2.2.2. Entry mode selection	16
2.2.3. Location within China	15
2.3. Research methods and data.....	18
2.3.1. Methodology	18
2.3.2. Sample	19
2.3.3. Questionnaire	21
2.4. Results	21
2.4.1. Why multi-location in China?	21
2.4.2. How to multi-locate in China?	22
2.4.3. Where to multi-locate in China?.....	23
2.5. Conclusions	23
References	26
Appendix 2.1. Summary of the different responses about the multi-location process.....	30
Capítulo 3. Does the Public Support Service matter in the multi-location process?.....	33
3.1. Introduction	36
3.2. Chinese market profile: contextual factors to be considered	38
3.2.1. Foreign Direct Investment (FDI) in China.....	38
3.2.2. Geographical FDI distribution in China.....	39
3.2.3. Entry mode in China.....	41
3.3. Literature review	41
3.3.1. What is a Public Support Service?	41
3.3.2. The influence of the Public Advisory Service and its usage in the multi-location process?	42
3.4. Research methods and data.....	44

3.4.1. Data collection and analysis.....	44
3.4.2. Firm profile	45
3.4.3. Questionnaires	46
3.5. Results	47
3.5.1. The importance of the External Support in the multi-location process	47
3.5.2. Who collaborates with the External Support and what is the scope of such collaboration?	48
3.5.3. What is the relationship between the scope of collaboration and the satisfaction of collaboration?	50
3.6. Discussion of results.....	51
3.7. Conclusions	52
References	54

Capítulo 4. The impact of industrial clusters on multi-location’s performance: the case in China..... 59

4.1. Introduction	62
4.2. Theoretical framework	64
4.2.1. The nature of Industrial Clusters	64
4.2.2. Knowledge: the main asset within industrial clusters.....	65
4.2.3. Location choice: factors that influence the decision.....	65
4.3. Empirical case.....	67
4.3.1. Clusters in China	67
4.3.2. Sectors in regional clusters	68
4.3.3. Research methods and data.....	69
4.3.3.1. Data collection and analysis	69
4.3.3.2. Firms profile	70
4.3.4. Empirical study	71
4.4. Discussion of results.....	73
4.5. Conclusions	74
References	76
Appendix 4.1. Correlation matrix	80
Appendix 4.2. Interview findings regarding set of questions.....	81

Capítulo 5. Conclusiones, limitaciones y futuras investigaciones 83

Anexos	89
---------------------	-----------

Anexo I: Cuestionario: Estudio cualitativo de los clusters industriales en China.....	89
---	----

Anexo II: Cuestionario: Estudio cuantitativo de instituciones y multinacionales en China...	91
---	----

Anexo III: Cuestionario: estrategia de multi-localización en China	93
--	----

Referencias bibliográficas.....	95
--	-----------

Índice de figuras

Figura 1.1: Esquema de la tesis doctoral.....	4
---	---

Figura 2.1: Research scheme	13
-----------------------------------	----

Figura 2.2: The location within China of Spanish manufacturing companies.....	18
---	----

Figura 2.3: Process and methodology of the study	19
--	----

Figura 3.1: Relation between companies and external support	37
---	----

Figura 3.2: Socioeconomic aggregations and External Support locations	40
---	----

Figura 3.3: Methodology phases and characteristics	45
--	----

Figura 3.4: Scoring of different factors in the multi-location process	47
--	----

Figura 4.1: Location of the main clusters in China.....	68
---	----

Índice de tablas

Tabla 2.1: Sample details	20
---------------------------------	----

Tabla 3.1: Overview of the FDI in China.....	38
--	----

Tabla 3.2: Distribution among Joint-Venture and WOFE.....	41
---	----

Tabla 3.3: Descriptive analysis.....	46
--------------------------------------	----

Tabla 3.4: Cross tabulation multi-location strategy / collaboration.....	49
--	----

Tabla 3.5: Cross tabulation scope / satisfaction.....	51
---	----

Tabla 4.1: Sectors of the main clusters in China	68
--	----

Tabla 4.2: Descriptive analysis.....	71
--------------------------------------	----

Tabla 4.3: Cross tabulation co-location / business activity	71
---	----
