

INDEX OF CONTENTS

1. GENERAL INTRODUCTION.....	1
1.1. Applications of oocyte cryopreservation.....	1
1.2. Oocyte cryopreservation.....	2
1.3. Difficulties to oocyte cryopreservation.....	6
1.4. Strategies to reduce chilling injury.....	9
1.4.1. Reducing container volumes.....	9
1.4.2. Modification of cryopreservation solution.....	9
1.4.3. Modificacion of plasma membrane.....	10
1.4.4. Cytoskeleton stabilizing agents.....	12
1.4.5. Modification of lipid content.....	13
1.4.6. Induced resistance.....	14
1.5. How to evaluate the cryopreservation procedure?.....	15
1.5.1. Ultrastructural criteria.....	15
1.5.2. Functional criteria.....	16
1.5.3. Viability criteria.....	17
1.6. References.....	18
2. OBJECTIVES.....	39
3. CHAPTER I: Effects of cryopreservation on the meiotic spindle, cortical granule distribution and development of rabbit oocytes.....	41
3.1. Introduction.....	47
3.2. Material and Methods.....	48
3.2.1. Oocyte recovery.....	49
3.2.2. Cryopreservation procedures.....	49
3.2.3. Meiotic spindle immunostaining.....	51
3.2.4. Cortical granule staining.....	52
3.2.5. Parthenogenetic activation.....	54
3.2.6. Experimental design.....	55
3.2.7. Statistical analysis.....	55
3.3. Results.....	56
3.3.1. Effect of cryopreservation method on the meiotic spindle.....	56
3.3.2. Effect of cryopreservation method on the granule distribution.....	56

3.3.3. Effect of cryopreservation method on development after parthenogenetic activation.....	57
3.4. Discussion.....	58
3.4. References.....	61
4. CHAPTER II: Post-warming competence of in vivo matured rabbit oocytes treated with cytoskeletal stabilization (Taxol) and cytoskeletal relaxant (Cytochalasin B) before vitrification.....	69
4.1. Introduction.....	75
4.2. Material and Methods.....	77
4.2.1. Oocyte recovery.....	77
4.2.2. Cytoskeleton treatment.....	78
4.2.3. Vitrification procedure.....	78
4.2.4. Meiotic spindle immunostaining and chromosome staining.....	79
4.2.5. Parthenogenetic activation.....	80
3.2.6. Experimental design.....	81
3.2.7. Statistical analysis.....	82
4.3. Results.....	82
4.3.1. Analysis of meiotic spindle.....	82
4.3.2. Chromosome analysis.....	83
4.3.3. Analysis of development after parthenogenetic activation.....	84
4.4. Discussion.....	85
4.5. References.....	87
5. CHAPTER III: Treatment with cholesterol-loaded methyl-β-cyclodextrin increased the cholesterol in rabbit oocytes, but did not improve developmental competence of cryopreserved oocytes.....	93
5.1. Introduction.....	99
5.2. Material and Methods.....	
5.2.1. Experiment 1: Determination of cholesterol incorporation.....	100
5.2.2. Experiment 2: Determination of the presence of cholesterol after cryopreservation procedures	100
5.2.3. Experiment 3: Effect of NBD-CLC treatment on	

parthenogenetic development or ICSI fertilisation after cryopreservation	103
5.2.5. Statistical analysis.....	104
5.3. Results and discussion.....	105
5.4. References.....	108
6. CHAPTER IV: Live birth from slow-frozen rabbit oocytes after in vivo fertilisation	109
6.1. Introduction.....	115
6.2. Material and Methods.....	117
6.2.1. Animals.....	117
6.2.2. Animal models: unilateral ovariectomised and unilateral oviduct ligation.....	118
6.2.3. Oocyte recovery.....	120
6.2.4. Intraoviductal oocyte transfer.....	120
6.2.5. Slow-freezing protocol.....	121
6.2.6. Experimental design.....	122
6.2.6.1. Experiment 1: In vivo fertilization of fresh oocytes.....	122
6.2.6.2. Experiment 2: Generation of live offspring from slow-frozen oocytes.....	123
6.2.7. Statistical analysis.....	124
6.3. Results.....	125
6.4. Discussion.....	129
6.5. References.....	133
7. CHAPTER V: Generation of live birth from cryopreserved rabbit oocytes after in vivo fertilization.....	141
7.1. Introduction.....	147
7.2. Material and Methods.....	149
7.2.1. Animals.....	149
7.2.2. Oocyte collection.....	150
7.2.3. Slow-freezing of oocytes.....	150
7.2.4. In vivo fertilisation.....	151
7.2.5. Experimental design.....	153
7.2.5.1. Experiment 1: Blocking the oviducts.....	153

7.2.5.2. Experiment 2: In vivo fertilization of fresh oocytes...	154
7.2.5.3. Experiment 3: Generation of live birth from slow-frozen oocytes.....	155
7.2.6. Statistical analysis.....	156
7.3. Results.....	157
7.4. Discussion.....	159
7.5. References.....	163
8. CHAPTER VI: First pregnancy and live birth from vitrified rabbit oocytes.....	171
8.1. Introduction.....	177
8.2. Material and Methods.....	179
8.2.1. Animals.....	179
8.2.2. Oocyte collection.....	179
8.2.3. Vitrification procedure.....	180
8.2.4. Slow-freezing procedure.....	180
8.2.5. In vivo fertilisation.....	181
8.2.6. Experimental design: Generation of live birth from cryopreserved rabbit oocytes.....	183
8.2.7. Statistical analysis.....	185
8.3. Results.....	185
8.4. Discussion.....	187
8.5. References.....	190
9. GENERAL DISCUSSION.....	199
10. CONCLUSIONS.....	223
