|---|-----------|
| <b>I. INTRODUCTION.....</b>   | <b>1</b>  |
| <b>I.1 Phytohormones.....</b>   | <b>1</b>  |
| <b>I.2 Gibberellins.....</b>  | <b>1</b>  |
| <b>I.3 Gibberellin signaling.....</b>   | <b>2</b>  |
| <b>I.4 DELLA proteins.....</b>  | <b>3</b>  |
| <b>I.5 GA-GID1-DELLA mechanism and DELLA degradation.....</b>   | <b>4</b>  |
| <b>I.6 Interaction between the GA-GID1-DELLA module, environmental pathways and other phytohormones</b> | <b>6</b>  |
| <b>I.6.1 Gibberellin and auxin.....</b>   | <b>8</b>  |
| <b>I.6.1.1 Auxin.....</b>   | <b>8</b>  |
| <b>I.6.1.2 Auxin biosynthesis and conjugation.....</b>  | <b>9</b>  |
| <b>I.6.1.3 Auxin transport and signaling.....</b>   | <b>12</b> |
| <b>I.6.1.4 Tools in auxin research.....</b>   | <b>14</b> |
| <b>I.6.2 Gibberellin and auxin crosstalk.....</b>   | <b>15</b> |
| <b>I.6.3 A possible new mechanism: regulation of IAA methylation by GAs.....</b>                        | <b>18</b> |
| <b>II. OBJECTIVES.....</b>  | <b>28</b> |
| <b>III. RESULTS 1: IAMT1 and IAA homeostasis.....</b>   | <b>31</b> |
| <b>III.1 Characterization of <i>iamt1</i> mutants.....</b>  | <b>32</b> |
| <b>III.2 <i>IAMT1</i> and differential growth .....</b>   | <b>35</b> |
| <b>III.3 IAMT1 and IAA levels.....</b>  | <b>38</b> |
| <b>III.4 Local defects in auxin accumulation in the <i>iamt1</i> mutants</b>                            | <b>39</b> |
| <b>III.5 <i>IAMT1</i>'s expression pattern.....</b>   | <b>44</b> |
| <b>III.6 Regulation of polar auxin transport by IAMT1.....</b>  | <b>48</b> |
| <b>III.7 Regulation of <i>PIN</i> gene expression by IAMT.....</b>                                      | <b>50</b> |
| <b>III. 8 Supplementary.....</b>  | <b>54</b> |
| <b>IV. RESULTS 2: TRANSCRIPTIONAL REGULATION OF <i>IAMT1</i> THROUGH GAI.....</b>                       | <b>59</b> |
| <b>IV.1 IAMT1 mediates the influence of DELLA proteins on auxin homeostasis.....</b>                    | <b>60</b> |
| <b>IV.2 Identification of DELLA binding sites.....</b>  | <b>61</b> |
| <b>IV.3 <i>In silico</i> analysis of the promoter of <i>IAMT1</i>.....</b>                              | <b>65</b> |
| <b>IV.4 <i>DORNRÖSCHEN</i>, co-activator of IAMT1's expression.....</b>                                 | <b>67</b> |
| <b>IV.4.1 Molecular interaction between DRN and GAI.....</b>  | <b>69</b> |
| <b>IV.4.2 Identification of DRN binding sites in the promoter of <i>IAMT1</i>....</b>                   | <b>70</b> |
| <b>IV.5 PIF4 and BES1, possible repressors of IAMT1's expression.....</b>                               | <b>72</b> |

|  |            |
|--|------------|
| <b>IV.6 Regulation of IAMT1's expression through DELLA in <i>Arabidopsis thaliana</i>.....</b> | <b>75</b>  |
| <b>IV.7 Spatial control of the expression of <i>IAMT1</i>.....</b>                             | <b>78</b>  |
| <b>IV.8 Supplementary.....</b>   | <b>83</b>  |
| <br>   |            |
| <b>V. DISCUSSION.....</b>  | <b>97</b>  |
| <br>   |            |
| <b>V.1 The role of IAA methylation during differential growth.....</b>                         | <b>97</b>  |
| <b>V.2 The regulation of <i>IAMT1</i> expression by DELLA proteins....</b>                     | <b>100</b> |
| <br>   |            |
| <b>VI. CONCLUSIONS.....</b>  | <b>107</b> |
| <br>   |            |
| <b>VII. MATERIALS AND METHODS.....</b>   | <b>109</b> |
| <br>   |            |
| <b>VII.1 Plant lines and growth conditions.....</b>  | <b>111</b> |
| <b>VII.2 Genotyping mutant lines.....</b>  | <b>111</b> |
| <b>VII.3 Growth rate and tropism conditions.....</b>   | <b>112</b> |
| <b>VII.4 Generation of double mutant lines.....</b>  | <b>112</b> |
| <b>VII.5 Real time quantitative RT-PCR.....</b>  | <b>112</b> |
| <b>VII.6 Construction of transgenic lines.....</b>   | <b>113</b> |
| <b>VII.7 Transient expression assays.....</b>  | <b>116</b> |
| <b>VII.8 Confocal microscopy.....</b>  | <b>116</b> |
| <b>VII.9 Analysis of reporter lines.....</b>   | <b>116</b> |
| <b>VII.10 <i>In silico</i> promoter analysis.....</b>  | <b>117</b> |
| <b>VII.11 <i>In silico</i> correlation analysis.....</b>                                       | <b>117</b> |
| <b>VII.12 Protein extraction and western blot.....</b>   | <b>117</b> |
| <b>VII.13 Yeast two hybrid assay.....</b>  | <b>118</b> |
| <b>VII.14 Bimolecular Florescence Complementation.....</b>                                     | <b>118</b> |
| <b>VII.15 Auxin transport assay.....</b>   | <b>118</b> |
| <b>VII.16 IAA and MeIAA quantification.....</b>  | <b>118</b> |
