
CONTENTS

I	Introduction	1
1	Introduction	3
1.1	Motivation	3
1.2	Scientific goals and research hypotheses	6
1.3	Thesis structure	10
II	State of the art	11
2	State of the art	13
2.1	Introduction	13
2.2	Learning environments	14
2.2.1	Traditional learning	16
2.2.2	Collaborative learning	19
2.2.3	Learning itineraries	19
2.3	Assessment	21
2.3.1	Computer-based assessment	21
2.3.2	Using images for assessment	24
2.4	Natural User Interfaces	25
2.5	Autostereoscopic systems	26
2.6	Frontal Projection systems	27

III	Design	31
3	Design	33
3.1	Introduction	33
3.2	Game design	33
3.3	Game description	42
IV	Developments	45
4	Autostereoscopic system	47
4.1	Introduction	47
4.2	Technical details	47
4.2.1	Hardware	48
4.2.2	Software	49
4.2.3	Interaction	51
5	Frontal projection system	55
5.1	Introduction	55
5.2	Hardware	56
5.3	Software	56
V	Validation	61
6	Study 1: Autostereoscopy vs. Frontal Projection	63
6.1	Introduction	63
6.2	Design of the evaluations	64
6.2.1	Participants	64
6.2.2	Measurements	64
6.2.3	Procedure	64
6.3	Results	67
6.3.1	Learning outcomes	67
6.3.2	System comparison outcomes	72
6.3.3	Satisfaction outcomes	74
6.3.4	Avatar outcomes	76
6.3.5	Correlation analysis	77
6.4	Conclusions	77

7	Study 2: Individual vs. Collaborative learning	81
7.1	Introduction	81
7.2	Design of the evaluations	82
7.2.1	Participants	82
7.2.2	Measurements	82
7.2.3	Procedure	82
7.3	Results	83
7.3.1	Learning outcomes	83
7.3.2	Satisfaction outcomes	89
7.3.3	Correlation analysis	91
7.3.4	Rasch model	93
7.4	Conclusions	97
8	Study 3: Collaboration in Large Groups vs. Collaboration in Pairs or Traditional Methods	99
8.1	Introduction	100
8.2	Design of the evaluations	100
8.2.1	Participants	100
8.2.2	Measurements	101
8.2.3	Procedure	102
8.3	Results	105
8.3.1	Learning outcomes	105
8.3.2	Rasch model analysis	108
8.3.3	Satisfaction and usability outcomes	111
8.4	Conclusions	116
9	Study 4: Flexible Learning Itinerary vs. Linear Learning Itinerary	121
9.1	Introduction	121
9.2	Design of the evaluations	123
9.2.1	Description of the game	123
9.2.2	Participants	123
9.2.3	Measurements	123
9.2.4	Procedure	124
9.3	Results	124
9.3.1	Learning outcomes	124
9.3.2	Satisfaction and interaction outcomes	129
9.3.3	Correlation analysis	132
9.4	Conclusions	134

10 Study 5: Text-only vs. Real Images vs. Fake Images	137
10.1 Introduction	137
10.2 Design of the evaluations	138
10.2.1 Participants	138
10.2.2 Measurements	138
10.2.3 Procedure	139
10.3 Results	141
10.3.1 Learning outcomes	141
10.3.2 Rasch model analysis	146
10.4 Conclusions	149
VI Discussion	153
11 Concluding remarks	155
11.1 Conclusions	155
11.2 Scientific contributions	158
11.2.1 JCR Journals	159
11.2.2 Latindex journals	159
11.2.3 Conferences	159
11.2.4 Books	160
11.2.5 Other diffusions	160
11.3 Future work	160
11.3.1 Possible improvements to the systems	160
11.3.2 Additional comparatives	161
Bibliography	163
VII Appendices	185
A Questionnaires	187
A.1 Design	187
A.2 Learning questions	188
A.3 System comparison questions	190
A.3.1 Study 1	190
A.3.2 Studies 2 and 4	191
A.3.3 Study 3	192
