
Contents

1	Introduction	1
1.1	Motivation	1
1.2	Research objectives	6
1.3	Structure of this dissertation	7
2	Complex data and knowledge representation	11
2.1	Introduction	11
2.2	Propositional logic	13
2.3	First-order logic	17
2.4	Higher-order and Types	21
2.5	Knowledge representation in Erlang	24
2.6	Summary	27
3	Learning in complex and incremental scenarios	29
3.1	Introduction	29
3.2	Learning from complex data	31
3.3	Incremental learning	34
3.4	Summary	38
4	Complexity, compression and structure in knowledge evaluation	41
4.1	Introduction	42
4.2	Complexity and compression	44
4.3	Link analysis	46
4.4	Summary	51
5	Towards declarative and general-purpose learning approaches	53
5.1	Introduction	54
5.2	The gErl System	56
5.3	Heuristics based on reinforcement learning	63
5.4	Summary	74

6	Intelligent test tasks for AI evaluation	77
6.1	Introduction	78
6.2	Intelligence tests tasks and similar problems	81
6.3	Account of computer models solving intelligence test problems	85
6.4	Technical analysis	101
6.5	Discussion	113
6.6	Summary	117
7	Concept dependencies of intelligent systems	119
7.1	Introduction	120
7.2	General intelligence evaluation during cognitive development .	123
7.3	Analysing the tests: specific cognitive models and general tools	128
7.4	Developmental analysis of IQ test problems: Pattern size and required constructs	130
7.5	Discussion	149
7.6	Summary	152
8	Forgetting and consolidation in knowledge acquisition	155
8.1	Introduction	156
8.2	Coverage graph	159
8.3	Basic Metrics for Acquired Knowledge Assessment	161
8.4	Structuring knowledge: forgetting, promotion and demotion . .	168
8.5	Experiments	175
8.6	Summary	186
9	Conclusions and Future Work	189
9.1	Conclusions	189
9.2	Future Work	194
	Bibliography	197
	Appendices	235
A	Erlang	237
	Introduction	237
	Functional Erlang	238
	Dynamic typing in Erlang	241
	Metaprogramming in Erlang	242
	Concurrent and Distributed Erlang	244

B IQ tests	247
introduction	247
General intelligence problems	247
Other abstract pattern problems	250
Knowledge-intensive problems	254
C Coverage Graphs: Experimental	259
Consolidation without forgetting	259
Consolidation with forgetting	264
Integration with gErl	267
